WE SERVE

HEALTHCARE
and Pharmaceuticals

"

What does better healthcare mean to you?

For Uffizio, it means increasing the efficiency of on-call physicians, healthcare workers, and medical representatives. With an easy-to-use telematics platform, like ours, you too can organize everyday tasks, maintain the condition of medical equipment, and keep costs under control.

How does Uffizio
help?

1 Lucrative Reports

Get intelligent insights into workforce productivity. Increase your business productivity and attend to more patients than ever before!

2 Boosting Healthcare Equipment's Uptime

Reduce, or even eliminate, the need for repairs by keeping up with maintenance schedules.

3 Temperature monitoring system

Store drugs and medicine at precise temperatures and get live notifications for temperature changes, so as to increase sustainability.

4 Productivity

Automate tasks, payroll, and reimbursements.

FIELD SALES
and Service

> **"**
>
> Wouldn't it be great to conduct business operations efficiently and collaborate better—even when your team is outside their office cubicles? That is why Uffizio has got just the solutions to overcome challenges faced by this industry.

How does Uffizio
help?

1 **Customer Retention**

Promise and deliver on-time services. In case of delays, notify your clients ahead of time.

2 **Better Fuel Efficiency**

Analytical reports showcase fuel usage, idling times, driver behaviors, and historical routes.

3 **Fleet Productivity**

Driving between job sites is unpredictable even on a good day. Adapt to detours, vehicle breakdowns, changing traffic, or customer cancellations, and complete more jobs in less time!

4 **Flawless Administration**

Live-tracking helps you stay connected with your team! So, you prepare realistic schedules based on personnel availability and target dates.

TRUCKING

> "
Transferring goods from one place to another, without proper management, can be a logistical nightmare. Our truck tracking system is backed by years of experience and gives you absolute control over predicted as well as unexpected challenges! We provide the tools and acumen, you most certainly need, to plan optimum routes and lower operational costs.

How does Uffizio
help?

1 **Increase Vehicle Uptime**

Regular vehicle servicing can increase its uptime and prevent unexpected breakdowns.

2 **Fuel Monitoring**

Get actionable data for abnormal drops in fuel levels. Cut down transportation costs by preventing fuel thefts.

3 **Driver Efficiency**

With dash cam integration, you can record every second of road time and monitor your drivers' behavior. Review driving habits and identify reckless or distracted drivers.

4 **Minimize Unauthorized Activities**

Receive alerts for route deviation and unauthorized stoppages. Protect your high-value cargo using e-locks and biometrics. Get notified upon consignment tampering.

- Airport consignment managment
- Logistics management
- Delivery vehicle management

FMCG

How does Uffizio
help?

1 **Proactive Maintenance**

Keep your vehicle functioning at maximum capacities and reduce all chances of unexpected vehicle breakdowns.

2 **Temperature Monitoring**

Transfer goods and commodities at ideal temperatures and minimize losses from product spoilage.

3 **Increased Traceability**

E-locks, QR codes, and biometric acknowledgment ensure thorough safety. Receive alerts for tampering or unauthorized stoppages. Digital PODs available—to verify deliveries.

4 **Better Drivers**

See driver as well as fleet availability, and assign drivers closest to the delivery destination to lower transit times. Inculcate economic driving habits through alerts and violations.

Success
Stories

- Dairy product distribution
- Optimizing food and beverage delivery
- Delivery vehicle management

"

Businesses in this vertical deal with low-shelf life products. Hence, profits rely on brisk and efficient last-mile deliveries. We design our services to lower times on the road, reduce fleet costs, and improve driving behaviors.

AGRICULTURE

> We help agribusinesses by tracing productivity and streamlining processes. Get precise telematics insights into tedious fieldwork and facilitate tasks like plowing, sowing, or irrigating.

How does Uffizio help?

1 **Field Measurement**

Calculate area, perimeters, and other metrics of cultivated areas. Embrace precision farming—accurate to the last square meter.

2 **Monitor Field Equipment**

Keep records of your equipment's engine work hours. Get insights into unproductive miles or machine RPMs with fuel reports and metrics.

3 **Security**

Import or create geo-fences, set limits for tractors, seed drillers, or workers. Monitor plowed or harvested fields and get alerts for unauthorized actions.

4 **Transparency**

Manage happenings of your field remotely using MDVR. Keep track of how much work gets done and limit inactivity.

Success Stories

- Dairy product distribution
- Streamlining agricultural operations
- PTO usage and equipment monitoring
- Tracking merchandisable woods

CONSTRUCTION
and Speciality Trades

> "
Uffizio's solutions simplify Construction and related activities. If you are managing complex projects across multiple job sites, we've got your back! With us, you'll see your crew working from dawn to dusk!

How does Uffizio
help?

1 **Understand Worksite Productivity**

Track your workforce progress across multiple construction sites using advanced video telematics.

2 **Safety and Security**

Put a stop to unauthorized equipment usage and take measures to prevent theft.

3 **Boosting Equipment Utilization**

Equipment is the heart of all construction operations. That's why we help you stay on maintenance schedules. Identify overused equipment and repair it beforehand.

4 **Reduced Operational Costs**

Put a finger on avoidable costs and eliminate them for higher savings!

Success
Stories

○ PTO usage and equipment monitoring

PASSENGER Transport

> "
> Inaccurate arrivals/departures, unexpected breakdowns, and reckless driving have troubled the transport industry for too long. At Uffizio, we are shaking our heads and saying, "Not anymore!"

How does Uffizio help?

1 Real-time ETAs

Never make your passengers wait! We can help you organize stoppages along the route. With improved routes, you will achieve more on-time arrivals than before.

2 Increased Fleet Uptime

Unplanned fleet downtime could halt your business. Follow through with the suggested maintenance schedule and keep your vehicles running safely.

3 Better Driving Behaviors

You will get to know if your drivers are tailgating, violating stop-signs or red-lights, cornering, and over-speeding. Discipline drivers and promote economic driving habits!

4 Reduced Fuel Expenses

Smarter routes and ideal driving patterns will ultimately save you from excessive fuel costs.

Success Stories

- Insights into driver behaviors
- Student transportation management
- Employee transportation management
- EV management

WASTE
and Recycling

> A minor fall-through, like personnel turnover or a road detour, can substantially affect the waste collection routes. Therefore, connecting pickup trucks with GPS tracking software is becoming an important step in achieving targets and increasing sustainability.

How does Uffizio help?

1 Fleet Optimization

Access optimized routes to reduce transit times and fuel expenses.

2 Increased visibility

Waste collectors can take photographs of completed tasks and upload them in real-time. Instances of unfinished jobs can be addressed with MDVR footage.

3 Productivity

Telematics data can help you determine the exact distance of the collection routes and the time required to visit them. With GPS tracking, you can know where your collection crew is and get notified if they miss a checkpoint.

4 Maintenance

Prioritize maintenance of garbage trucks and sweeping vehicles before they break down completely. Prolong the life of tires using our tire pressure monitoring systems and further reduce repair costs!

Success Stories

Waste collection and disposal

EMERGENCY
and Security

> "
> The first responders to a public health or safety crisis need to move at the speed of light. Hence, we've just got the complete suite of telematics solutions to make sure the responders are taking beeline routes and arriving on the scene quickly and safely.

How does Uffizio
help?

1 **Nearest Driver Dispatch**

We help decrease response times by dispatching responders closest to the crisis. Reduce transit times while still keeping transportation costs low.

2 **Proactive Maintenance**

Active maintenance regimes help you run emergency and security vehicles at their peaks.

3 **Maximizing Fleet Utility**

With detailed fleet status and location reports, you can improve their utilization. Knowing the number of vehicles needed to get the job done is fundamental to resource allocation and usage.

4 **Instant Alerts**

Real-time alerts empower your crew to take corrective measures. Besides, you can always custom-design your alerts and set notifications.

- Solutions for Oil and Gas businesses
- Delivery vehicle management

FINANCIAL
Institutions

"

We help financial institutions track cash vans along the route. Increase the security of your ATM vestibules and banking centers, and guarantee fast emergency responses. Real-time data--so you can take corrective actions before it's too late!

How does Uffizio
help?

1 Better Analytics

Intelligent analytical reports keep you updated with the vehicle's current status, its past trips, stoppages along the routes, estimated ETAs, and idling times.

2 Driver Safety

Equip your drivers with SOS buttons and precise directions to the nearest police stations.

3 Video telematics

Incorporate driver-facing and road-facing cameras for added peace of mind. Our software provides unbelievable visibility into cash-transfer operations, making sure your valuables never go off the radar.

4 Safety

Uffizio provides real-time location of cash vans and lets you monitor multiple vehicles from a single screen. Share vehicle's live location with other stakeholders and increase business transparency.

FISHERIES

> "
>
> Commercial fisheries require geospatial insights of areas measuring thousands of miles and Uffizio is up for the task! Stay connected and collaborate effectively with your crew—even when they are far away at sea.

How does Uffizio
help?

1 **Compliant Trips**

Geo-fence restricted zones and international waters and make sure your vessel stays in compliant fishing regions.

2 **Increased Visibility**

Through MDVR, see what's happening on-board and put a check on crew inactivity and unauthorized activities.

3 **Voyage Planning**

Geospatial insights and precise telematics data can help you plan better voyages. Discover beeline routes and expedite fishing vessels' travel times.

4 **Temperature Monitoring**

Regulate and store fished produce at optimum temperatures. Our software identifies the slightest increase in storage room temperatures and notifies you consequently.

Success
Stories

- Fuel monitoring for vessels
- Tracking fishing vessels

FORESTRY
and Wildlife

"

Our earth's forest covers and wildlife are at constant risk of overexploitation. Hence, Uffizio offers solutions to protect fauna from being illegally hunted. Track endangered species and ensure their sustenance.

How does Uffizio
help?

1 **Intelligent Insights**

Useful tools that track animal movement, their resting hours, and demographics.

2 **SOS Module**

Allows animal or plant caretakers to request assistance.

3 **Track and Trace**

Use this functionality to track multiple animals simultaneously and stay up-to-date with animal locations in real-time. Share animal locations with their caregivers. You can also use live-tracking to facilitate search and rescue missions.

4 **Real-time Notifications**

Geo-fence perimeters and get notified upon entry of unauthorized persons, or when an animal crosses them. Get notified when an animal has tampered with its collar or ankle tracker—so you can fix it right away.

Success
Stories

○ Monitoring Wildlife

○ Tracking merchandisable woods

HIRE
and Rental

" Use our platform to get insights into how your customers are using rented equipment or vehicles. Increase customer retention and excel expectations by delivering a high-end user experience. Scale effortlessly and adapt to changing business needs with Uffizio's solutions.

How does Uffizio
help?

1 Increased Utilization

Increase your vehicle and equipment utilization with intelligent fleet analytics. Look for patterns that provide opportunities to reduce vehicle idling times.

2 Proactive Maintenance

Your contractors may neglect maintenance warnings to keep their projects running. Don't let their decisions cost you—monitor asset maintenance yourself!

3 Monitor Usage

Accurately track equipment and vehicle runtime and generate error-free invoices. Get notified in case of any rental agreement violations and apply additional charges accordingly.

4 Safety

See if your remote assets are safe and working effectively using dash cams and live-tracking features. Notifications for vehicle collisions or equipment damage!
