Features

Rosterz Manager

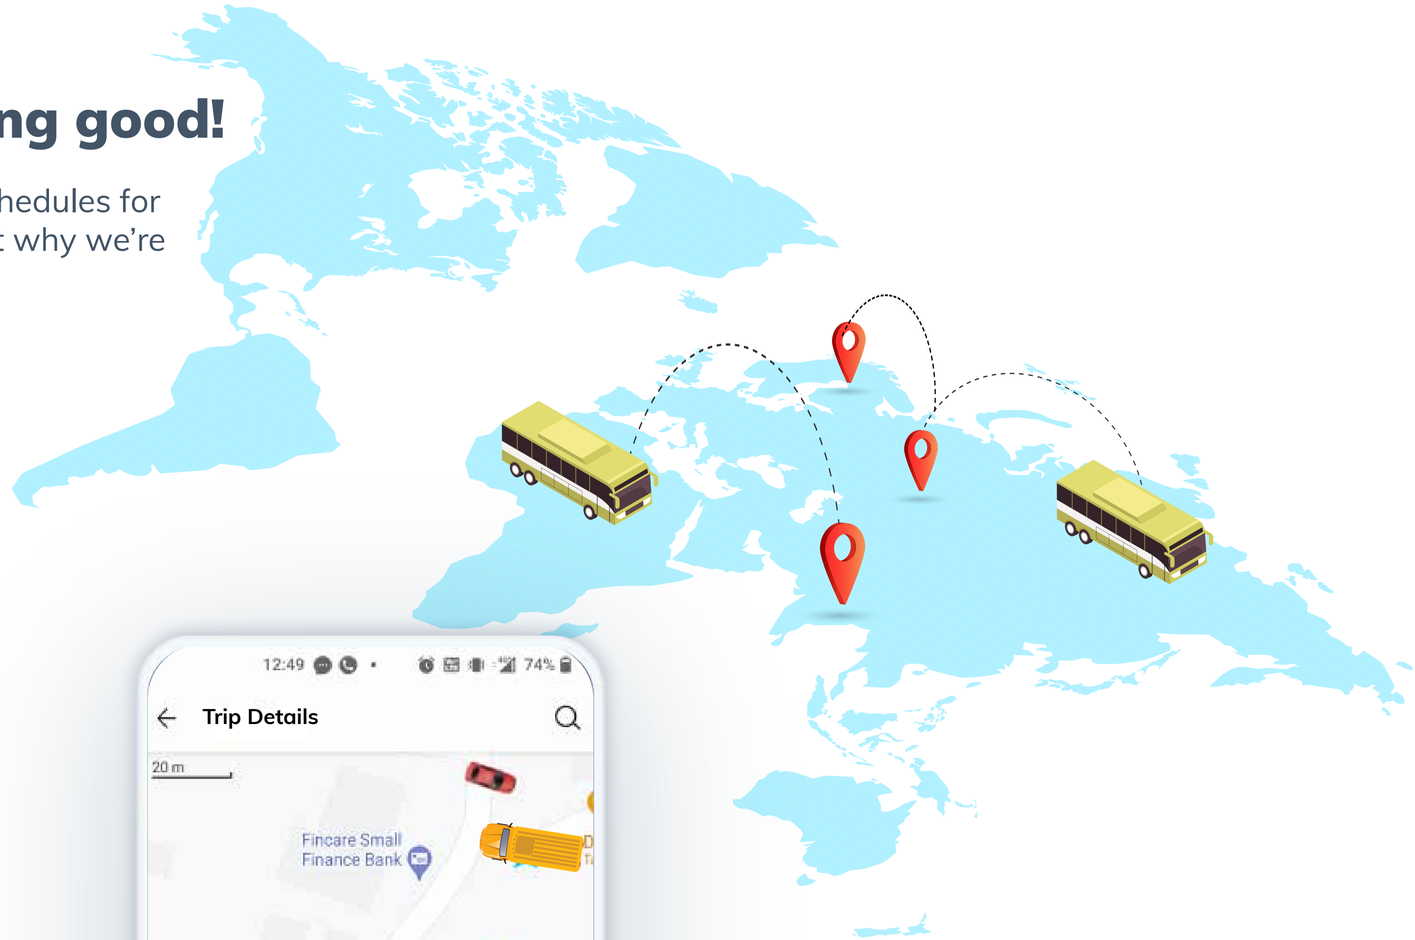
You’re a click away from everything good!

Planning routes for hundreds of employees, adjusting trip schedules for holidays, or keeping transportation costs low isn’t easy. That why we’re here to help!



1 **Manage Fleets**

Add and monitor all corporate fleets. Get access to real-time fleet location & fleet performance metrics.

2 **Manage Trips**

Managers can track all ongoing trips. They’re aware of missed, visited, unwanted and total stops.

3 **Manage Fleets**

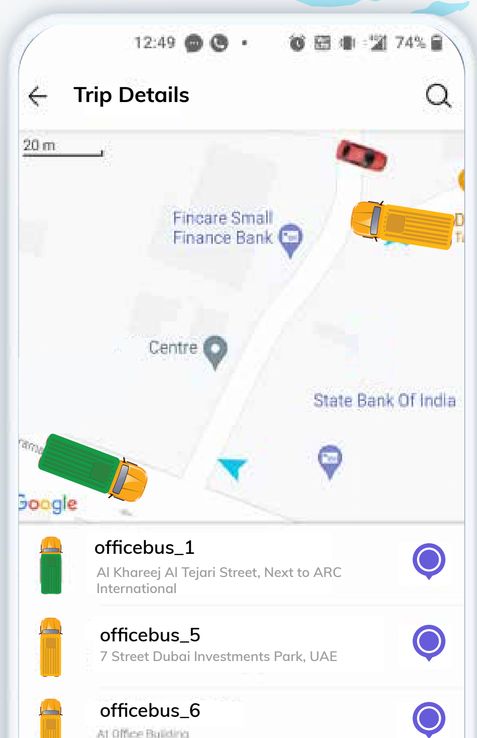
Define routes that are cost-effective, fast, and econoeconomical. Access optimized routes every day!

4 **Manage Drivers**

See where your drivers are, what they are doing, & how well they are driving at any given time.

5 **Manage Employees**

Maintain essential employee information like name, gender, mobile no. roster details, & more digitally



But wait! We've got more!

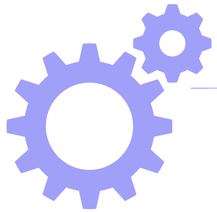
We've got tools that will help you accomplish more. Rosterz Management is a holistic employee transportation system—where everything gets taken care of!

White labeling & Customization

Keep your brand name & customize Rosterz Management as per your requirements!

Software Deployment

Option to launch the system on private servers or on the AWS cloud.



Powerful Integrations

Expand the system's functionality by integrating 3rd party software systems or ERPs.

24/7 Support

Free software training. Dedicate support team round the clock. It's the perfect combo!

Expenses

Break down operational costs and see how each penny gets spent.

Reports and Charts

Exhaustive reports that keep you updated with drivers, trips, and vehicular data at all times!

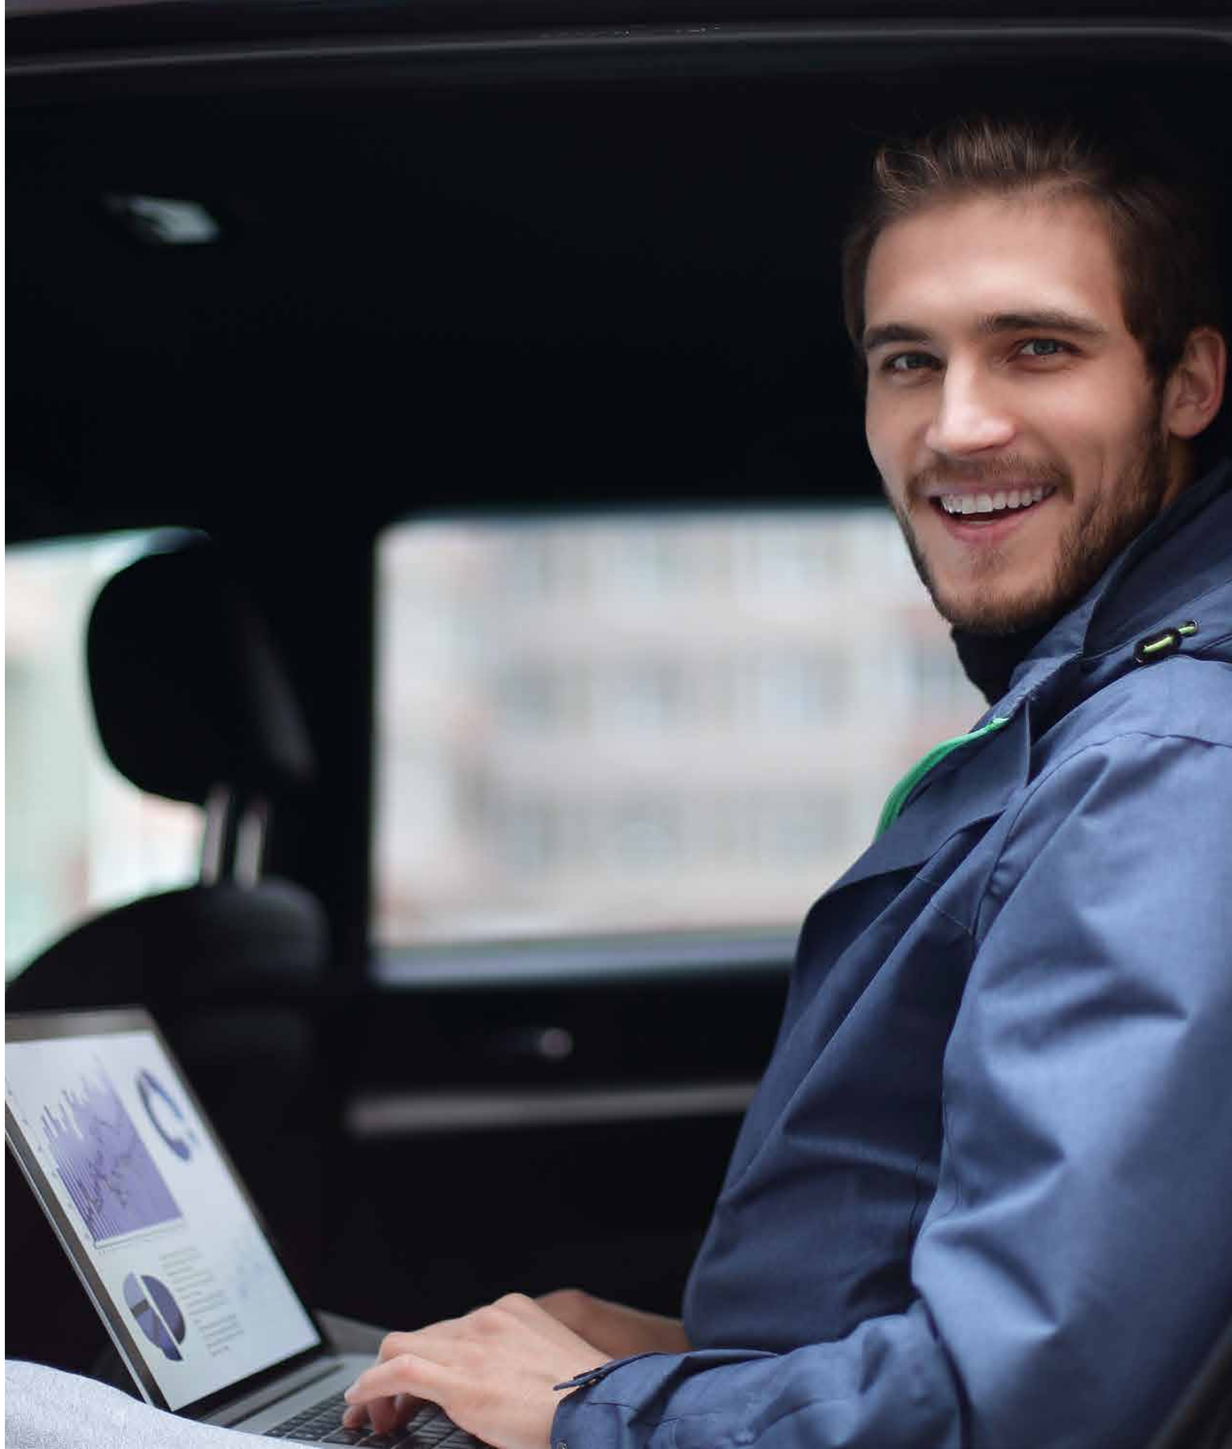
Features

Rosterz Employee

Because traveling to work shouldn’t be stressful!

We have a distinct mobile app for employees, so they never waste their mornings waiting for their ride!

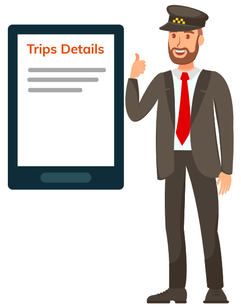
- Create a personal account on the app using your mobile phone.
- Track your ride’s location in real-time.
- Review approved routes, stops, & timings
- Adjust when you’d like to get notified about an approaching vehicle
- SMS alerts for delayed or change in vehicle
- SOS button for emergencies



Your vehicles don’t run themselves!

Taking care of your drivers is quintessential to smooth employee transfers. Here’s how you can make it easy for your drivers:

Assigned Trips

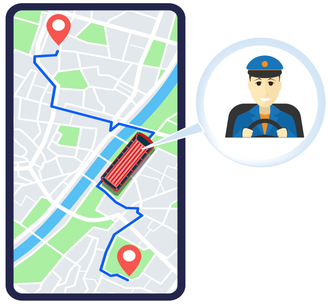


Drivers can review current or upcoming trips that get assigned to them.

Pickup/Drop Details

Know which employees are to be picked up or dropped off along a route.

Navigation Details



Guided navigation for unknown routes—so they’re never lost!

Real-time alerts for missed stops, route deviation, or trip assignment.
