

FIELD EMPLOYEE TASK MONITORING SOFTWARE

EBOOK

PURPOSE OF THIS EBOOK

Managing field tasks and constantly monitoring employees is a real challenge for companies. As a system integrator, your goal is to provide the most simplified solution that overcomes all the challenges in monitoring and assigning field tasks for all industries.

This eBook is designed to help you:

- Discover common **challenges** in field employee task monitoring.
- Understand how **Taskeye's** smart features simplify field task assignment and monitoring.
- Prepare the most advanced solution for efficient field employee task monitoring.

This eBook explains how Taskeye solves the problems of field employee task monitoring.

INTRODUCTION

“Want to offer a software solution that allows your client to monitor every field task, ensuring no detail is missed? We're introducing a software where every task, every employee, and every move is perfectly monitored!”

Our field employee task monitoring software is a powerful tool designed to streamline field tasks. It features smart task assignment, live monitoring, and advanced geofencing technology. These advanced features make it easy for managers to assign and monitor tasks while helping employees stay organized and productive

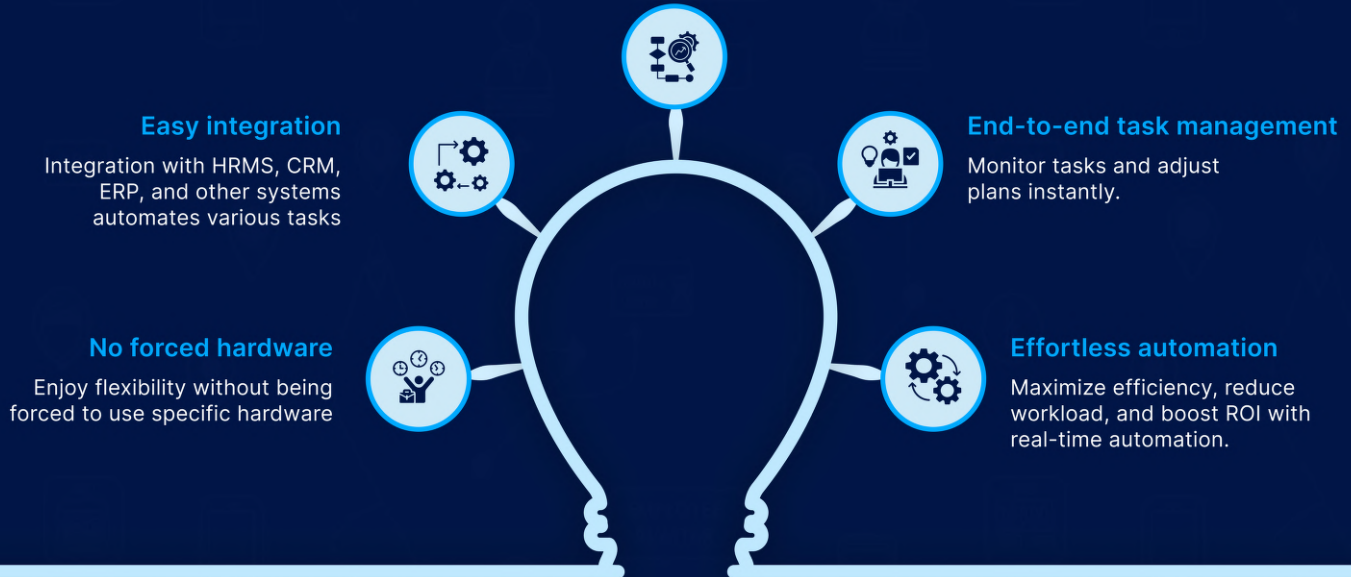

WHY FIELD EMPLOYEE TASK MONITORING IS A BIG OPPORTUNITY FOR YOU

Customizable workflow

Adapts to various industries, ensuring seamless task management.

CHALLENGES IN FIELD EMPLOYEE TASK MONITORING

1

Limited visibility

It is difficult to keep an eye on field employees and any field-related task manually.

2

Inaccurate reporting

Relying on manual reports can cause delays and inaccuracies in evaluating task performance.

3

Checking employee availability

Manually tracking each employee's schedule to determine their availability is time-consuming.

4

Attendance tracking issues

Managing attendance for remote employees can be challenging without accurate and efficient tracking tools.

5

Difficult expense management

Tracking & managing expenses of field employees is difficult without detailed expense reports.

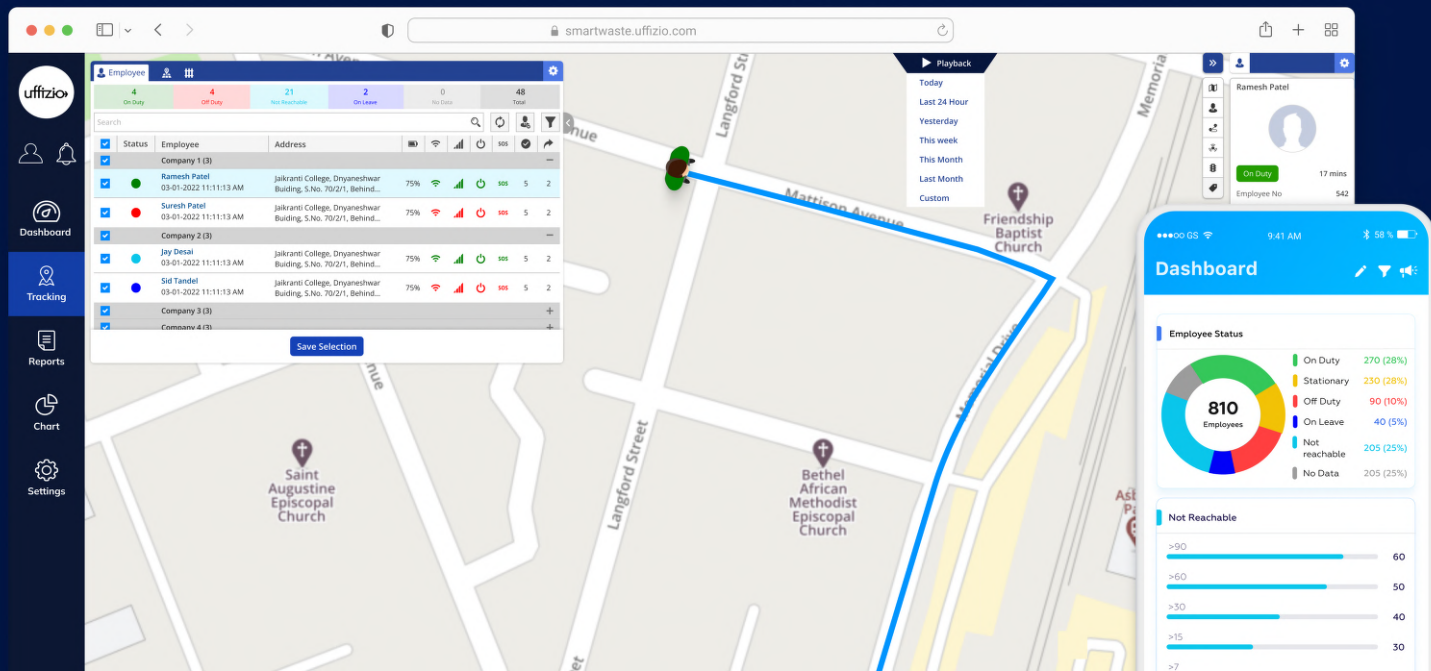

6

Emergency support delay

In urgent situations, field employees often lack quick access to help or support.

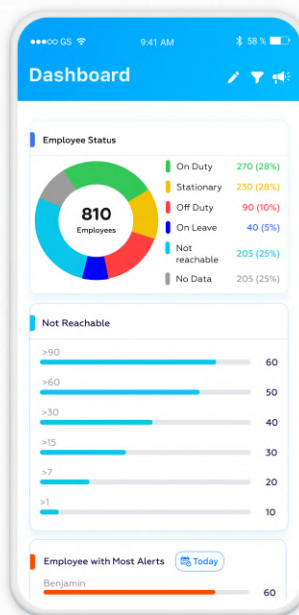

LIVE CENTRALIZED TRACKING

Managers can gain a comprehensive view of every task and employee activity through the centralized monitoring system.

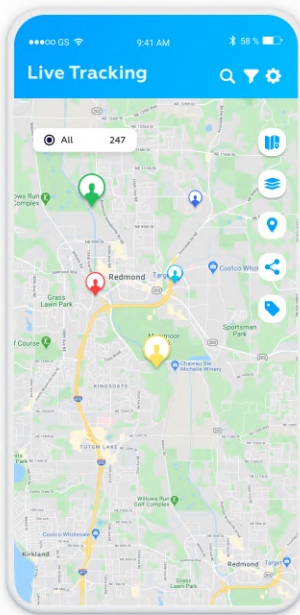

APPLICATION FOR EACH ROLE

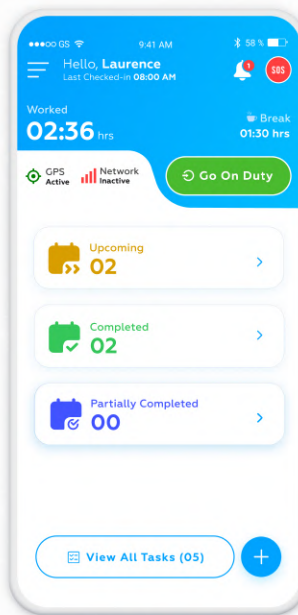

TaskEye provides a web portal and mobile application for managers to efficiently monitor and streamline operations. At the same time, its user-friendly mobile app empowers employees. With just a few taps, employees can manage their tasks effortlessly.

SOLUTION THROUGH FEATURES

A white, hand-drawn underline consisting of two slightly wavy horizontal lines.

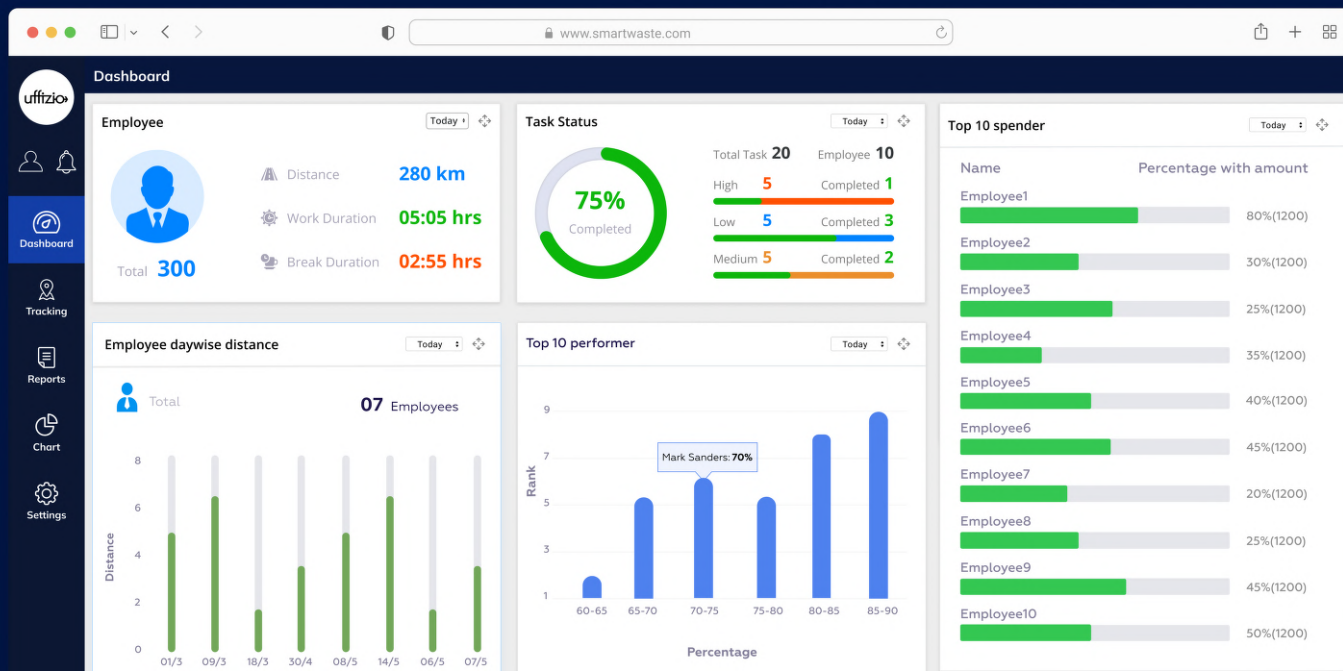

Efficient field task management starts with assigning the right tasks to the right people at the right time. With live employee monitoring, managers gain complete visibility, and employees feel supported and accountable. Our software offers amazing features that simplify operations by ensuring every task is tracked and completed on time. It seamlessly manages workflows, creating a more productive and stress-free work environment.

Let's explore the key features of Taskeye in this section:

INSIGHTFUL DASHBOARD

Taskey provides a powerful dashboard for managers to efficiently monitor and streamline all operations. It offers real-time insights into employee activities, performance, and expenses, helping managers make informed decisions.

KEY INSIGHTS

1

Real-time task and employee monitoring

Monitor the status of employees and tasks instantly.

2

Performance monitoring

Evaluate employee performance with key metrics.

3

Travel analysis

Track the total distance covered by employees.

4

Top performer recognition

Identify and reward the best-performing employee of the month.

5

Expense insights

View the highest traveler and spender of the month.

BENEFIT

Enhances operational efficiency by providing a clear overview of workforce performance and expenses.

MANAGERS CAN OPTIMIZE WORKFORCE PRODUCTIVITY

Managers can efficiently assign and manage tasks based on location, availability, and urgency. Tasks can be scheduled, rescheduled, or assigned instantly. Incomplete tasks are easily tracked and reassigned for seamless completion.

KEY INSIGHTS

1

Smart task assignment

Automatically assigns tasks based on employee availability and location.

2

Geofencing task initiation

Tasks start automatically when employees enter the assigned location.

3

Live status tracking

Managers get real-time updates on task progress.

4

Instant notifications

Alerts for task assignments, updates, and completions.

5

Comprehensive reporting

Daily, weekly, and monthly reports help track and plan tasks.

BENEFIT

Automatic task assignment improves task efficiency and reduces delays.

SIMPLIFYING DAILY TASKS FOR EMPLOYEES

Employees receive instant task notifications and detailed instructions. They can update task status using custom forms, audio recordings, or reports, ensuring smooth communication with managers.

Taskeye.uffizio.com

uffizio

KEY INSIGHTS

1

Easy navigation

Employees get clear task details for better execution.

2

Custom forms

Allows updates, queries, and status submissions.

3

Audio recording

Enables detailed task documentation.

4

Task reports

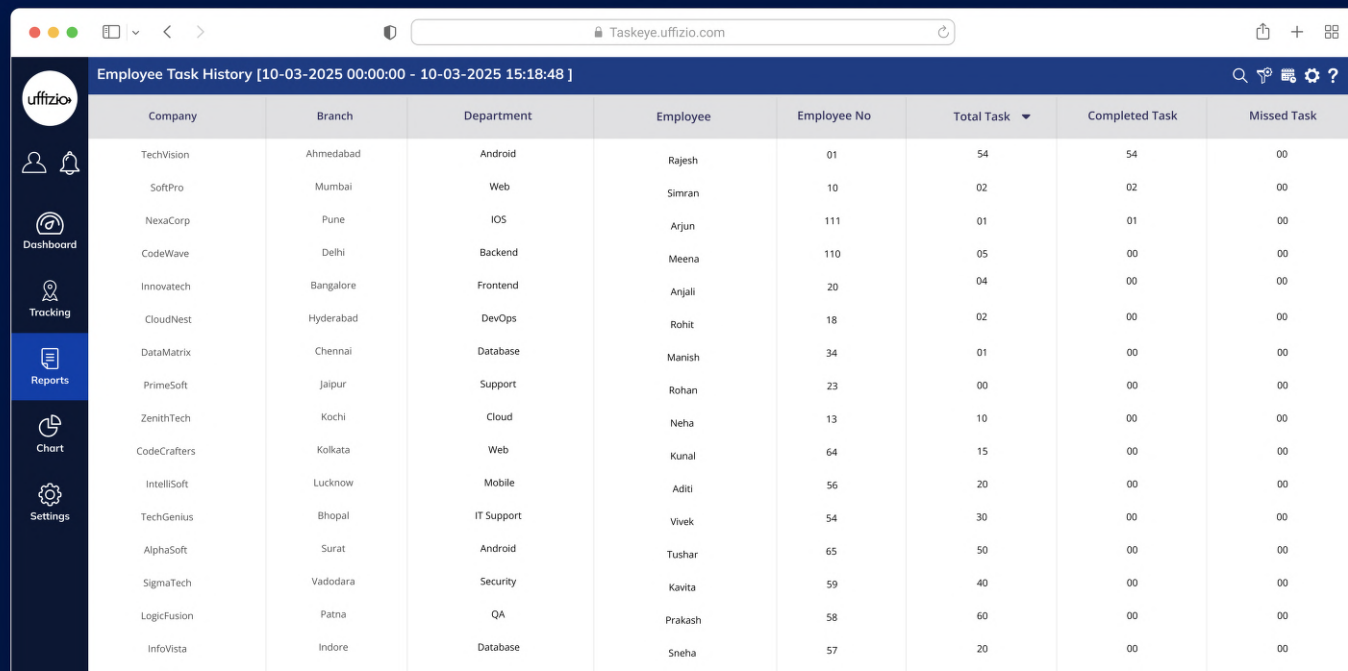

Employees can upload updates in PDF or JPG formats.

BENEFIT

Instant notification and detailed instruction simplifies task execution with clear instructions.

SMART WORKFORCE MONITORING FOR MANAGERS

Managers can check employee on-duty effortlessly, ensuring tasks are performed on time with accuracy and accountability.

The screenshot displays a web browser window with the URL `Taskeye.uffizio.com`. The application interface features a dark blue sidebar on the left with navigation icons for Dashboard, Tracking, Reports (highlighted), and Chart. The main content area shows a table titled "Employee Task History [10-03-2025 00:00:00 - 10-03-2025 15:18:48]". The table has columns for Company, Branch, Department, Employee, Employee No, Total Task, Completed Task, and Missed Task. The data lists 18 employees across various departments and branches, with task counts for each.

Company	Branch	Department	Employee	Employee No	Total Task	Completed Task	Missed Task
TechVision	Ahmedabad	Android	Rajesh	01	54	54	00
SoftPro	Mumbai	Web	Simran	10	02	02	00
NexaCorp	Pune	IOS	Arjun	111	01	01	00
CodeWave	Delhi	Backend	Meena	110	05	00	00
Innovatech	Bangalore	Frontend	Anjali	20	04	00	00
CloudNest	Hyderabad	DevOps	Rohit	18	02	00	00
DataMatrix	Chennai	Database	Manish	34	01	00	00
PrimeSoft	Jaipur	Support	Rohan	23	00	00	00
ZenithTech	Kochi	Cloud	Neha	13	10	00	00
CodeCrafters	Kolkata	Web	Kunal	64	15	00	00
IntelliSoft	Lucknow	Mobile	Aditi	56	20	00	00
TechGenius	Bhopal	IT Support	Vivek	54	30	00	00
AlphaSoft	Surat	Android	Tushar	65	50	00	00
SigmaTech	Vadodara	Security	Kavita	59	40	00	00
LogicFusion	Patna	QA	Prakash	58	60	00	00
InfoVista	Indore	Database	Sneha	57	20	00	00

KEY INSIGHTS

1

Time-based authentication

Verifies attendance based on predefined schedules.

2

Geofencing control

Ensures employees are at the correct location.

3

Real-time updates

Instant visibility on employee status.

4

Secure verification

Selfies and face recognition prevent proxy check-ins.

BENEFIT

Improves workforce transparency and accountability that ensures tasks are completed at the right time and place.

EASY ON-DUTY/OFF-DUTY UPDATES FOR EMPLOYEES

Employees can confirm their on-duty status through manual updates, selfies, or internal face recognition. They can also verify attendance by entering the designated task location. This ensures seamless attendance verification and smooth task execution.

The screenshot displays the smartwaste.uffizio.com web application interface. The main area shows a map with a blue route and a green location pin. The left sidebar contains navigation icons for Dashboard, Tracking, Reports, Chart, and Settings. The top navigation bar shows employee status counts: 4 On Duty, 4 Off Duty, 21 Not Reachable, 2 On Leave, 0 No Data, and 48 Total. Below this is a table listing employees and their status.

Status	Employee	Address	Signal	Battery	Location	Time
On Duty	Ramesh Patel	Jaikranti College, Dryaneshwar Buiding, S.No. 70/2/1, Behind...	75%	100%	03-01-2022 11:11:13 AM	5 2
Off Duty	Suresh Patel	Jaikranti College, Dryaneshwar Buiding, S.No. 70/2/1, Behind...	75%	100%	03-01-2022 11:11:13 AM	5 2
Not Reachable	Jay Desai	Jaikranti College, Dryaneshwar Buiding, S.No. 70/2/1, Behind...	75%	100%	03-01-2022 11:11:13 AM	5 2
On Leave	Sid Tandell	Jaikranti College, Dryaneshwar Buiding, S.No. 70/2/1, Behind...	75%	100%	03-01-2022 11:11:13 AM	5 2

The right sidebar shows the profile of Ramesh Patel, including his status (On Duty), employee number (542), and mobile number (9876543210). It also displays today's activity, including travel duration (09:16 hrs), work hour (01:30 hrs), break hour (09:16 hrs), duty start (09:30 AM), and duty end (06:00 PM).

KEY INSIGHTS

1

Simple check-ins

Multiple options for verifying on-duty status.

2

Geofencing restriction

Task updates are allowed only at assigned locations.

3

Offline logging

Updates work even in low-network areas.

4

Selfie authentication

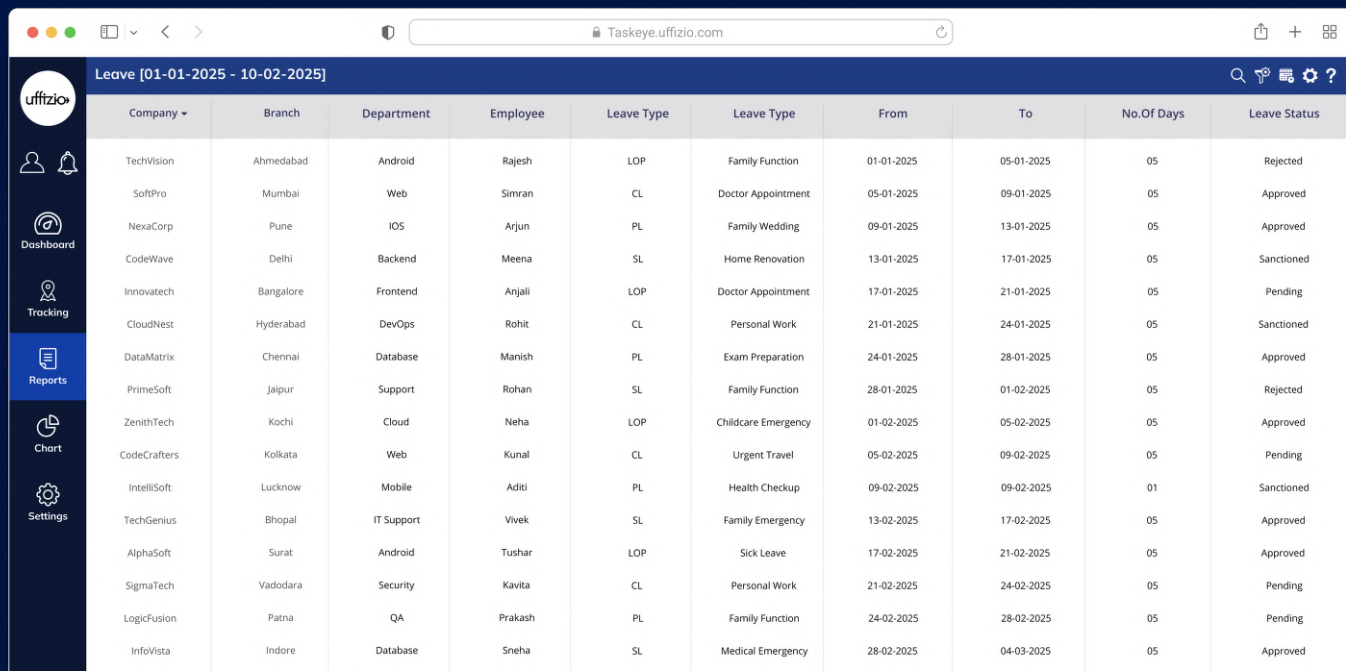

Secure photo proof for verification.

BENEFIT

Quick and hassle-free check-ins insures accurate employee monitoring with minimal effort.

EASY LEAVE APPROVAL & TRACKING FOR MANAGERS

Managers can review, approve, or reject leave requests quickly while ensuring proper workforce planning and policy compliance.

Leave [01-01-2025 - 10-02-2025]										
Company	Branch	Department	Employee	Leave Type	Leave Type	From	To	No.Of Days	Leave Status

InfoVista	Indore	Database	Sneha	SL	Medical Emergency	28-02-2025	04-03-2025	05	Approved	

KEY INSIGHTS

1

Simplified approvals

Approve or reject requests with a streamlined workflow.

2

Custom leave management

Configure leave types as per company policies.

3

Payroll integration

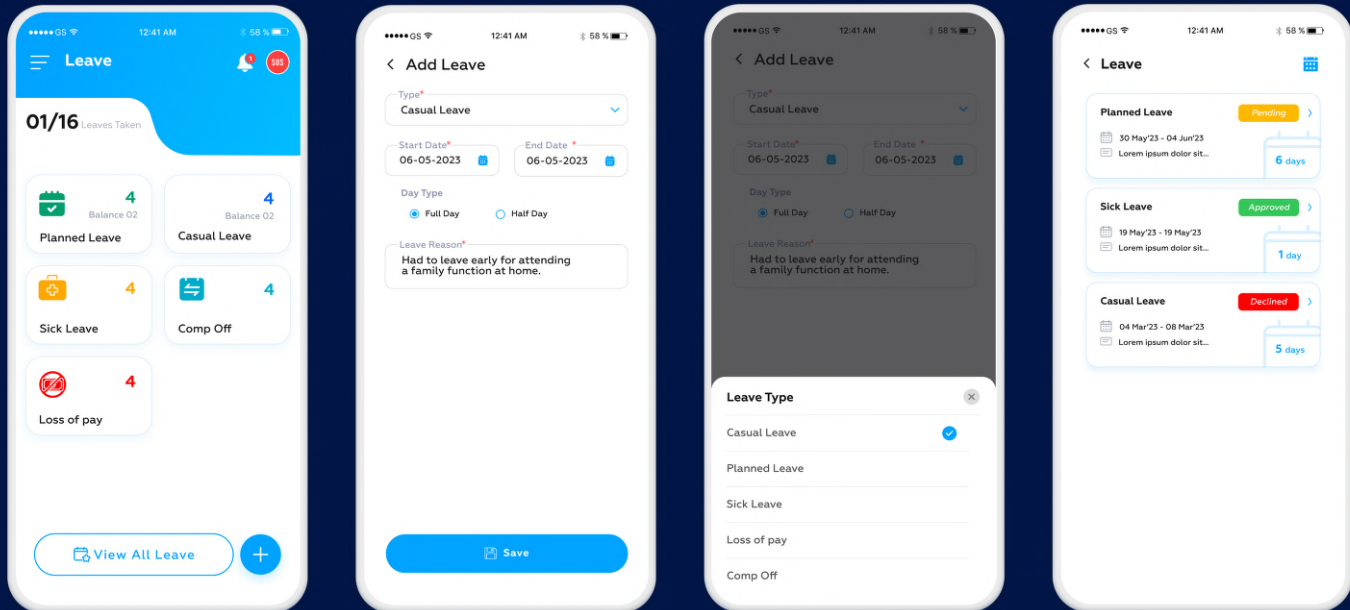

Syncs with HR systems for accurate payroll and attendance tracking.

BENEFIT

Simplifies and speeds up the leave management process, reducing administrative burden.

SIMPLIFIED LEAVE PROCESS FOR EMPLOYEES

Employees can easily apply for leave through the platform and track their leave balances. They also receive instant status updates, ensuring a simple and transparent process.

KEY INSIGHTS

1

Easy leave request

Apply for leave in just a few clicks

2

Leave balance tracking

Instantly view available leave days.

3

Track status

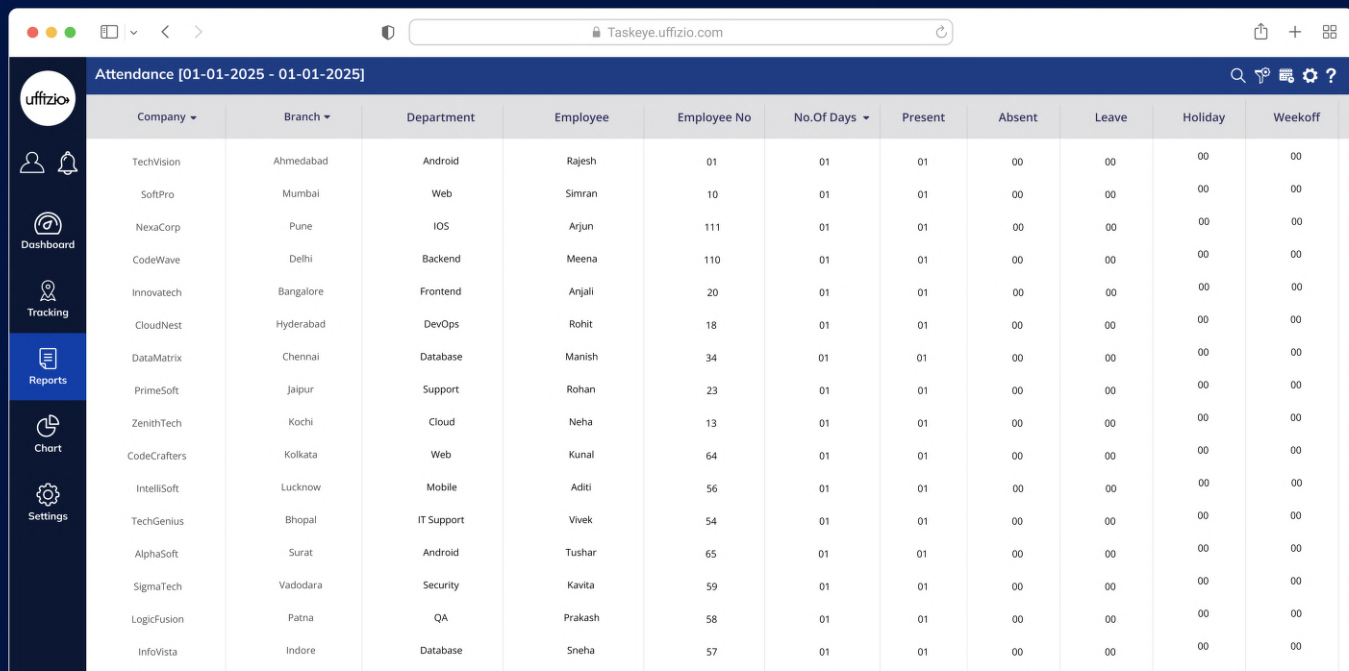

Get automatic notifications for approvals or rejections.

BENEFIT

Reduces workload with the automated attendance management and payroll.

EASY ATTENDANCE TRACKING FOR MANAGERS

Managers can monitor attendance in real time, track absences, and generate reports for better workforce planning.

Company	Branch	Department	Employee	Employee No	No.Of Days	Present	Absent	Leave	Holiday	Weekoff

InfoVista	Indore	Database	Sneha	57	01	01	00	00	00	00

KEY INSIGHTS

1

Live attendance tracking

Get real-time visibility on employee attendance.

2

Automated reports

Generate daily, weekly, or monthly attendance reports.

3

Custom policies

Set up attendance rules based on company policies.

4

Payroll integration

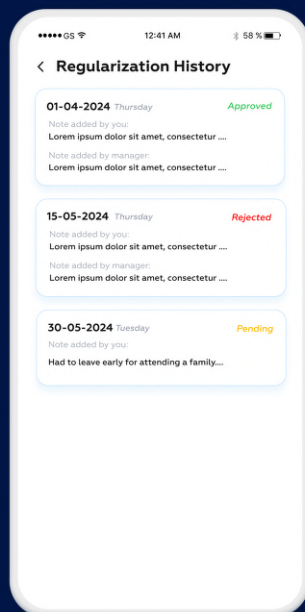

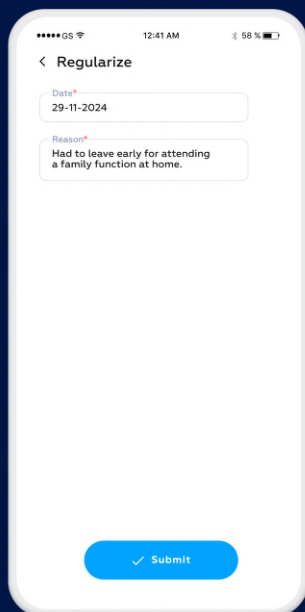

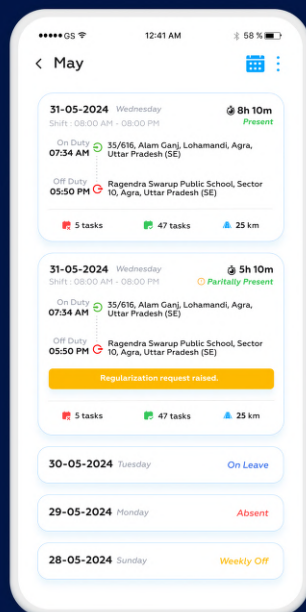

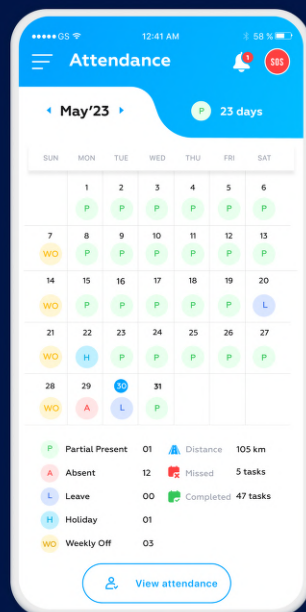

Syncs with HR systems for accurate salary processing.

BENEFIT

Provides clear visibility on leave balances and approvals for hassle-free process.

SIMPLE & ACCURATE ATTENDANCE MARKING FOR EMPLOYEES

Employees can easily mark their attendance through various methods, ensuring a hassle-free and transparent process.

KEY INSIGHTS

1

Multiple check-in options

Mark attendance via app, biometric, or geofencing.

2

Geofencing restriction

Attendance can only be marked at designated locations.

3

Offline logging

Allows attendance marking even in low-network areas.

4

Real-time status

Instantly view attendance records and work hours.

BENEFIT

Quick and easy attendance marking ensures accuracy with automated tracking.

EASY EXPENSE MONITORING & APPROVAL FOR MANAGERS

Managers can review, approve, and monitor expenses efficiently, ensuring cost control and compliance.

Expense [01-01-2025 - 01-01-2025]							
Company	Branch	Department	Employee	Actual Work Hour	Fix Expense	Variable Expense	Total Expense
TechVision	Ahmedabad	Android	Rajesh	00:00	00:00	00:00	00:00
SoftPro	Mumbai	Web	Simran	00:00	00:00	00:00	00:00

InfoVista	Indore	Database	Sneha	00:00	00:00	00:00	00:00

KEY INSIGHTS

1

Approval workflow

Streamlined process for reviewing and approving claims.

2

Customizable expense categories

Define categories based on business policies.

3

Detailed expense reporting

Generate reports by employee, project, or expense type.

4

Payroll integration

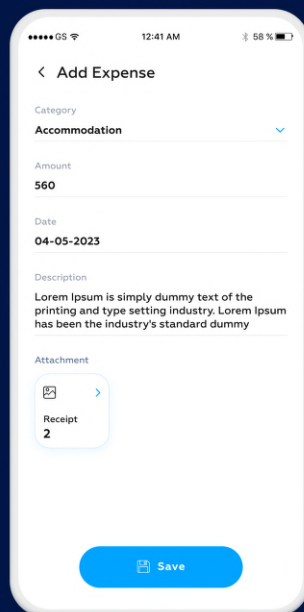

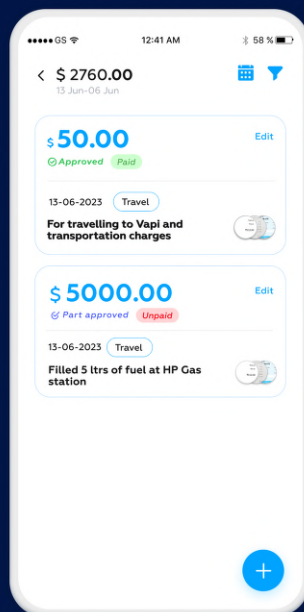

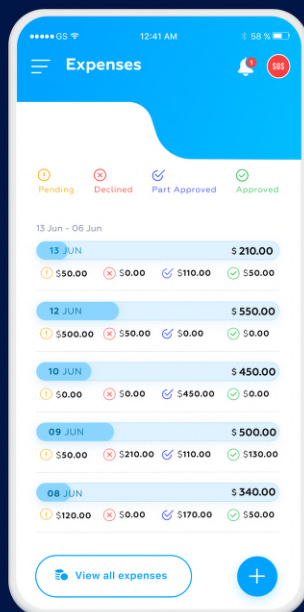

Syncs with HR systems for seamless reimbursement.

BENEFIT

Simplifies expense tracking and reimbursement processes, saving time for managers.

EASY EXPENSE TRACKING & SUBMISSION FOR EMPLOYEES

Employees can track and submit expenses like travel, meals, and accommodation directly through the app.

KEY INSIGHTS

1

Track expenses on the go

Log fuel, food, travel, and accommodation expenses effortlessly

2

Receipt uploads

Attach receipts instantly for verification

3

Live expense tracking

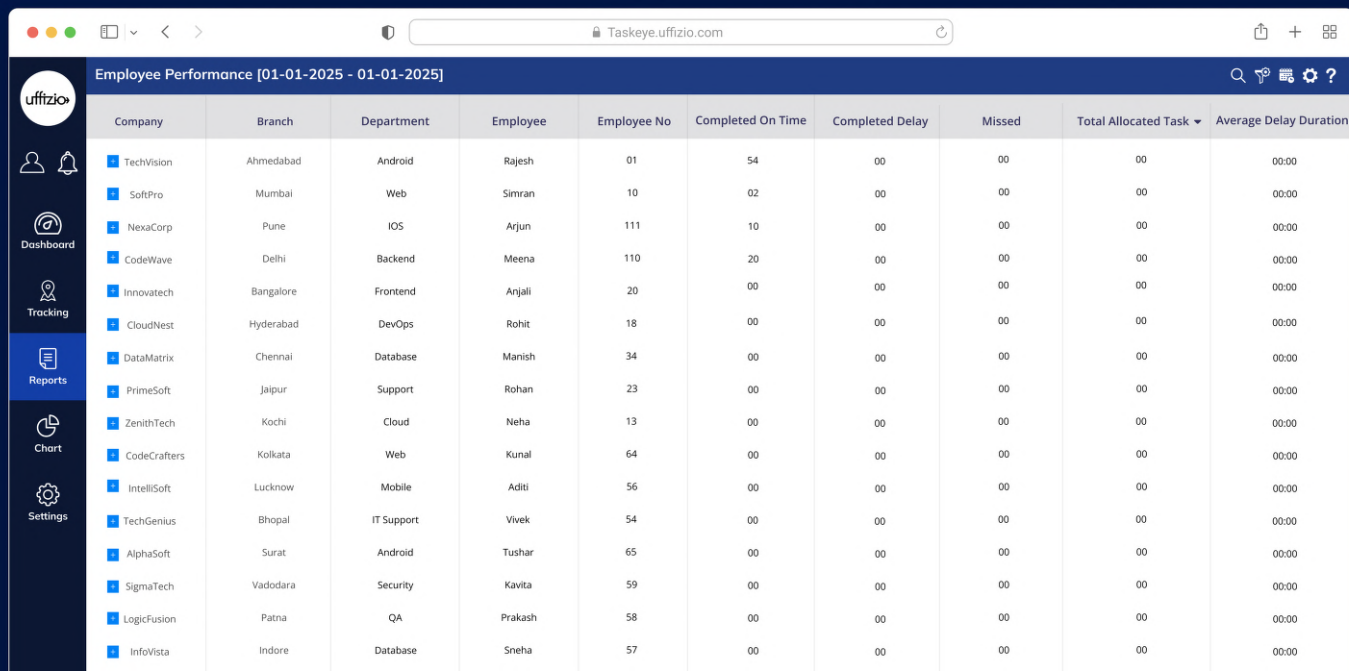

Monitor submitted expenses in real time.

BENEFIT

Simplifies expense submission with minimal effort and ensures faster reimbursements with accurate documentation.

EMPLOYEE PERFORMANCE MANAGEMENT FOR MANAGERS

Managers can track work hours, travel, breaks, and task status via an integrated dashboard. Performance reports, analytics, and customer feedback provide insights to improve efficiency and service quality.

Company	Branch	Department	Employee	Employee No	Completed On Time	Completed Delay	Missed	Total Allocated Task	Average Delay Duration

InfoVista	Indore	Database	Sneha	57	00	00	00	00	00:00

KEY INSIGHTS

1

Integrated dashboard

Centralized view of tasks, work hours, travel, and completion status.

2

Performance reports

Auto-generated insights on individual and team efficiency.

3

Analytics

Trend analysis for better resource allocation.

4

Customer feedback

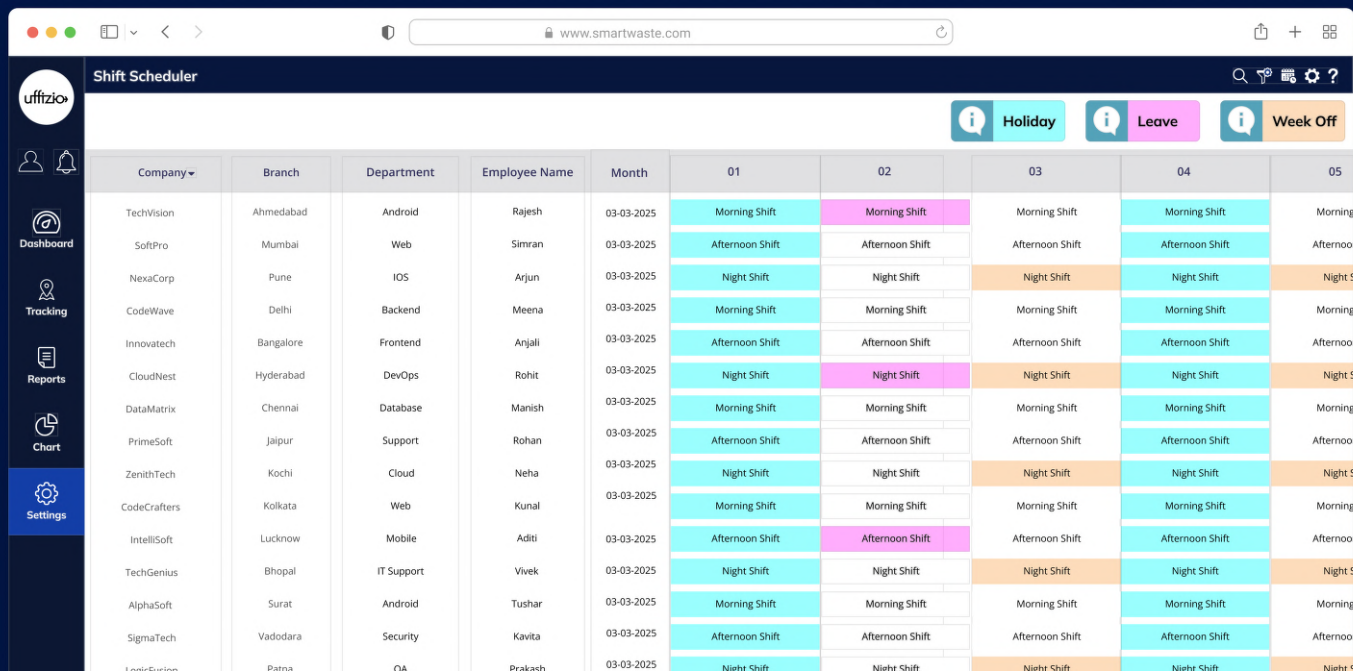

Direct input to assess efficiency and improve service.

BENEFIT

Gain insights into employee performance to optimize productivity and resource allocation.

EFFICIENT SHIFT MANAGEMENT FOR MANAGERS

Managers can efficiently plan shifts based on employee availability, ensuring optimal resource allocation. With just a single click, employees are instantly notified of their updated shifts, keeping everyone aligned. Additionally, detailed reports can be generated to provide valuable insights, enabling better decision-making and more effective shift planning.

The screenshot displays the 'Shift Scheduler' web application. The browser address bar shows 'www.smartwaste.com'. The application has a dark sidebar with navigation icons for Dashboard, Tracking, Reports, and Chart, and a 'Settings' button at the bottom. The main content area features a table with columns for Company, Branch, Department, Employee Name, Month, and five shift slots (01-05). Shifts are color-coded: Morning (light blue), Afternoon (pink), Night (orange), and Week Off (yellow). The table lists 15 employees across various departments and branches, with their assigned shifts for the month of March 2025.

KEY INSIGHTS

1

Automated shift scheduling

Scheduling based on employee availability and location.

2

Shift notification

Instantly notify employees of updated shifts.

3

Shift reporting

Generate detailed shift reports to monitor employee performance.

BENEFIT

Automatic shift planning based on the site location, reducing manual effort and errors.

SMART ADDRESS MANAGEMENT FOR MANAGERS

Managers can efficiently store, categorize, and assign locations to employees, improving task efficiency and planning.

Address							🔍 🗺 📄 ⚙ ?
Company	Address Name	Address Type	Description	Latitude	Longitude	Tolerance(Meter)	
TechVision	John Doe	Customer Address	Main Branch	40.7128	-74.0060	100	
SoftPro	Jane Smith	ATM	Near Station	41.4034	2.1740	50	
NexaCorp	Michael Johnson	Auditorium	Conference Hall	34.0522	-118.2437	200	
CodeWave	Emily Davis	Bank	Corporate Office	37.7749	-122.4194	100	
Innovatech	Chris Brown	Bus Stop	Downtown Area	48.8566	2.3522	200	
CloudNest	David Wilson	Airport	Terminal 1	51.4700	-0.4543	50	
DataMatrix	Sarah Thompson	ATM	City Mall	25.276987	55.296249	100	
PrimeSoft	Kevin Martinez	Branch	West Region Office	28.7041	77.1025	200	
ZenithTech	Laura Anderson	Auditorium	Event Space	19.0760	72.8777	200	
CodeCrafters	Daniel Clark	ATM	Tech Park	12.9716	77.5946	100	

KEY INSIGHTS

1

Location categorization

Organize addresses by offices, delivery points, and sales targets.

2

Location recovery

Retrieve precise location data for better route planning.

3

Task integration

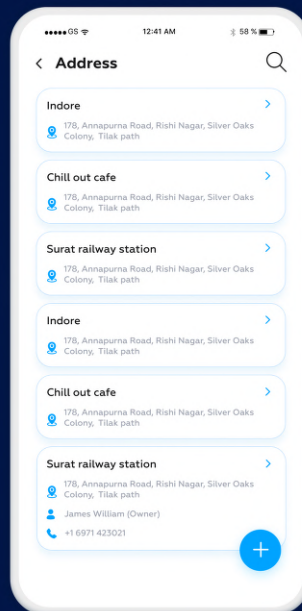

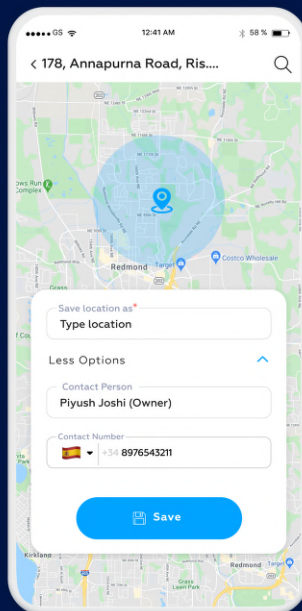

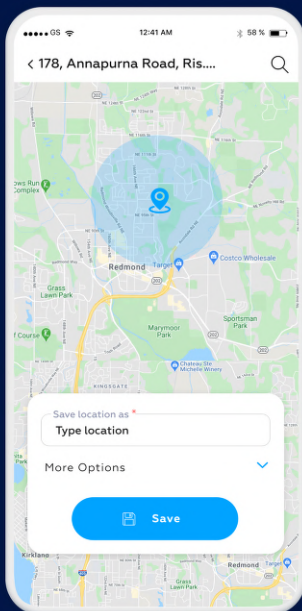

Assign tasks based on the nearest employee and location.

BENEFIT

Streamlines task assignment with organized location data and enhances route planning for optimized field operations.

EASY ACCESS TO LOCATION DATA FOR EMPLOYEES

Employees can quickly retrieve and navigate to assigned locations, ensuring smooth field operations. Instant updates help them stay on track and complete tasks efficiently.

KEY INSIGHTS

1

Centralized system

Access all client and operational addresses in one place.

2

Custom labels

Easily identify locations with assigned labels.

3

Instant updates

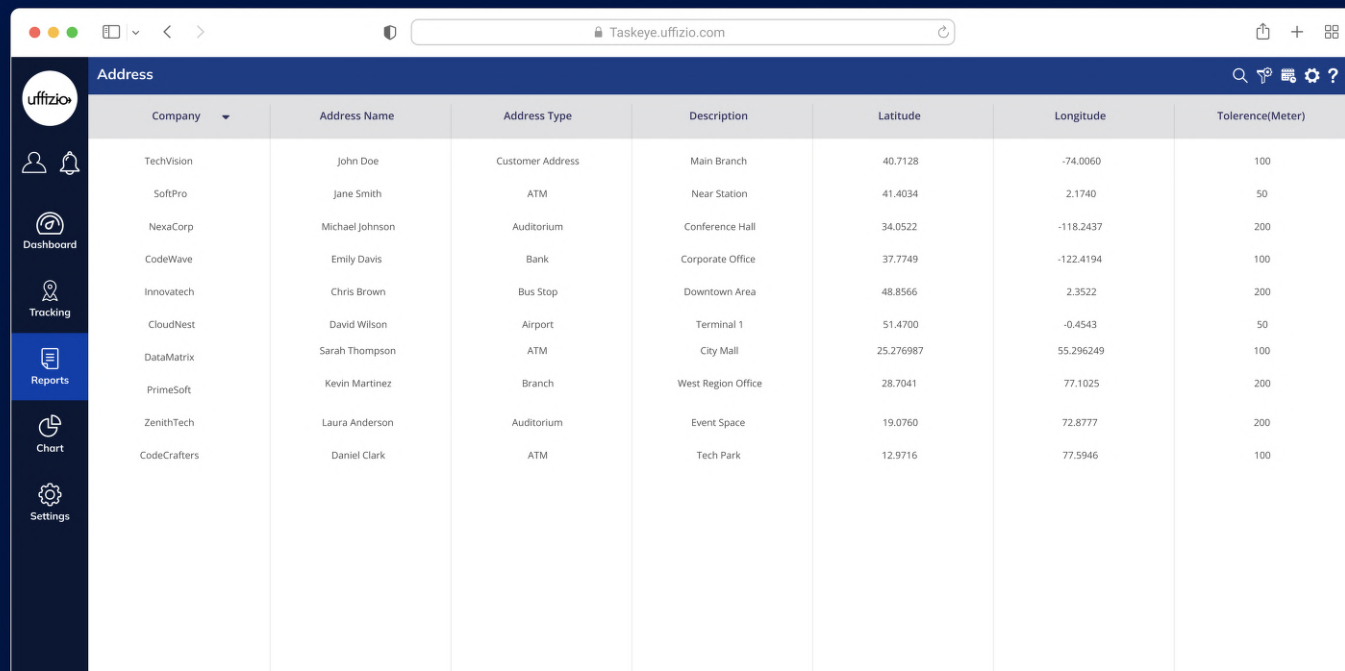

Get live location updates for accuracy.

BENEFIT

Reduces time spent searching for locations, ensuring accurate and efficient navigation.

SIMPLIFIED TIMEZONE COORDINATION FOR MANAGERS

Timezone coordination ensures seamless task management across regions. Managers assign tasks, set local-time alerts, and receive real-time updates.

The screenshot displays a web browser window with the URL `Taskeye.uffizio.com`. The application interface features a dark blue sidebar on the left with navigation icons for 'uffizio', 'Dashboard', 'Tracking', 'Reports' (highlighted), 'Chart', and 'Settings'. The main content area has a dark blue header labeled 'Address' with search and filter icons on the right. Below the header is a table with the following columns: Company, Address Name, Address Type, Description, Latitude, Longitude, and Tolerance(Meter). The table contains 10 rows of data representing various locations and their details.

Company	Address Name	Address Type	Description	Latitude	Longitude	Tolerance(Meter)
TechVision	John Doe	Customer Address	Main Branch	40.7128	-74.0060	100
SoftPro	Jane Smith	ATM	Near Station	41.4034	2.1740	50
NexaCorp	Michael Johnson	Auditorium	Conference Hall	34.0522	-118.2437	200
CodeWave	Emily Davis	Bank	Corporate Office	37.7749	-122.4194	100
Innovatech	Chris Brown	Bus Stop	Downtown Area	48.8566	2.3522	200
CloudNest	David Wilson	Airport	Terminal 1	51.4700	-0.4543	50
DataMatrix	Sarah Thompson	ATM	City Mall	25.276987	55.296249	100
PrimeSoft	Kevin Martinez	Branch	West Region Office	28.7041	77.1025	200
ZenithTech	Laura Anderson	Auditorium	Event Space	19.0760	72.8777	200
CodeCrafters	Daniel Clark	ATM	Tech Park	12.9716	77.5946	100

KEY INSIGHTS

1

Task coordination

Simplifies task coordination across multiple time zones.

2

Live update

Live monitoring of task progress updates ensure smooth operations.

3

Customizable alerts

Customizable alerts based on local times for timely task management.

4

Team alignment:

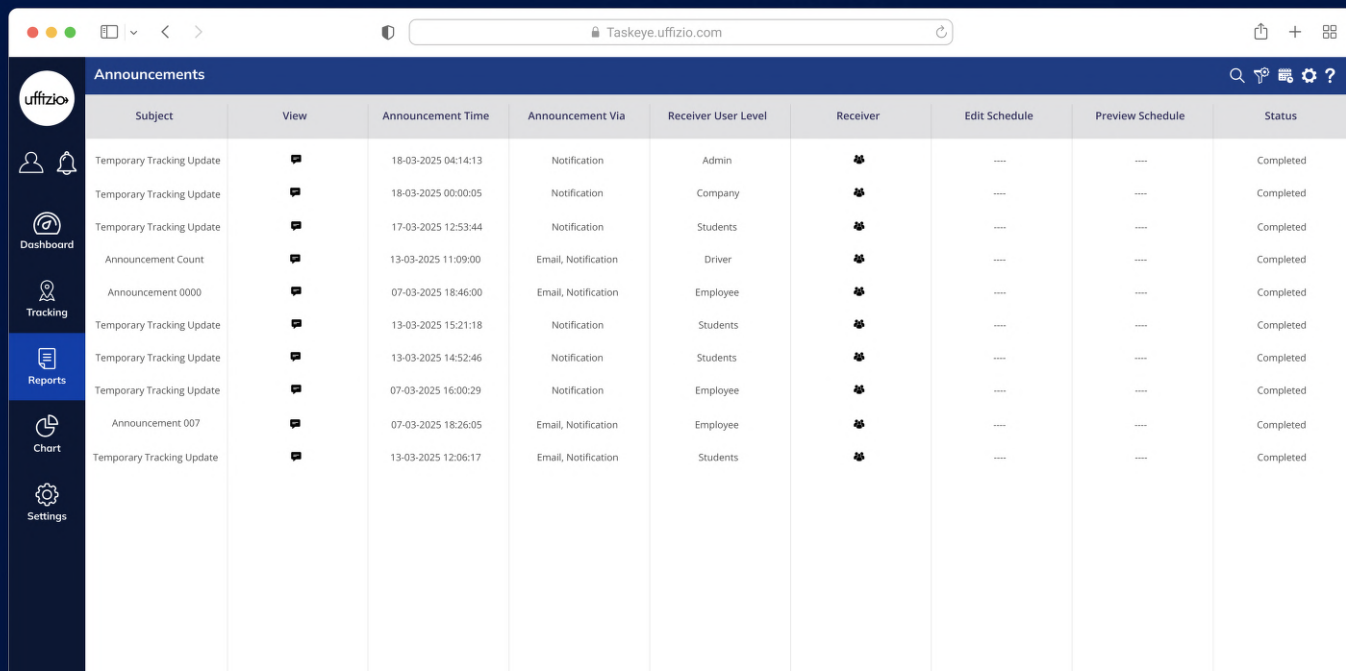

Keeps teams aligned, irrespective of their geographical location.

BENEFIT

Ensures seamless task coordination and team alignment across global locations.

EASY ANNOUNCEMENTS FOR MANAGERS

Managers can share latest updates with targeted teams. Announcements are tracked and delivered across multiple channels.

The screenshot displays the 'Announcements' section of the Taskeye.uffizio.com web application. The interface includes a top navigation bar with a search icon, a sidebar with navigation links (Dashboard, Tracking, Reports, Chart, Settings), and a main table listing announcements. The table has columns for Subject, View, Announcement Time, Announcement Via, Receiver User Level, Receiver, Edit Schedule, Preview Schedule, and Status. The 'Reports' link in the sidebar is highlighted in blue.

Subject	View	Announcement Time	Announcement Via	Receiver User Level	Receiver	Edit Schedule	Preview Schedule	Status
Temporary Tracking Update		18-03-2025 04:14:13	Notification	Admin		----	----	Completed
Temporary Tracking Update		18-03-2025 00:00:05	Notification	Company		----	----	Completed
Temporary Tracking Update		17-03-2025 12:53:44	Notification	Students		----	----	Completed
Announcement Count		13-03-2025 11:09:00	Email, Notification	Driver		----	----	Completed
Announcement 0000		07-03-2025 18:46:00	Email, Notification	Employee		----	----	Completed
Temporary Tracking Update		13-03-2025 15:21:18	Notification	Students		----	----	Completed
Temporary Tracking Update		13-03-2025 14:52:46	Notification	Students		----	----	Completed
Temporary Tracking Update		07-03-2025 16:00:29	Notification	Employee		----	----	Completed
Announcement 007		07-03-2025 18:26:05	Email, Notification	Employee		----	----	Completed
Temporary Tracking Update		13-03-2025 12:06:17	Email, Notification	Students		----	----	Completed

KEY INSIGHTS

1

Company-wide updates

Share important announcements across the organization.

2

Targeted messaging

Send messages to specific teams or projects.

3

Instant notifications

Notify employees via app, SMS, or email.

4

Acknowledgment tracking

Ensure messages are read and acknowledged.

5

Attachments for context

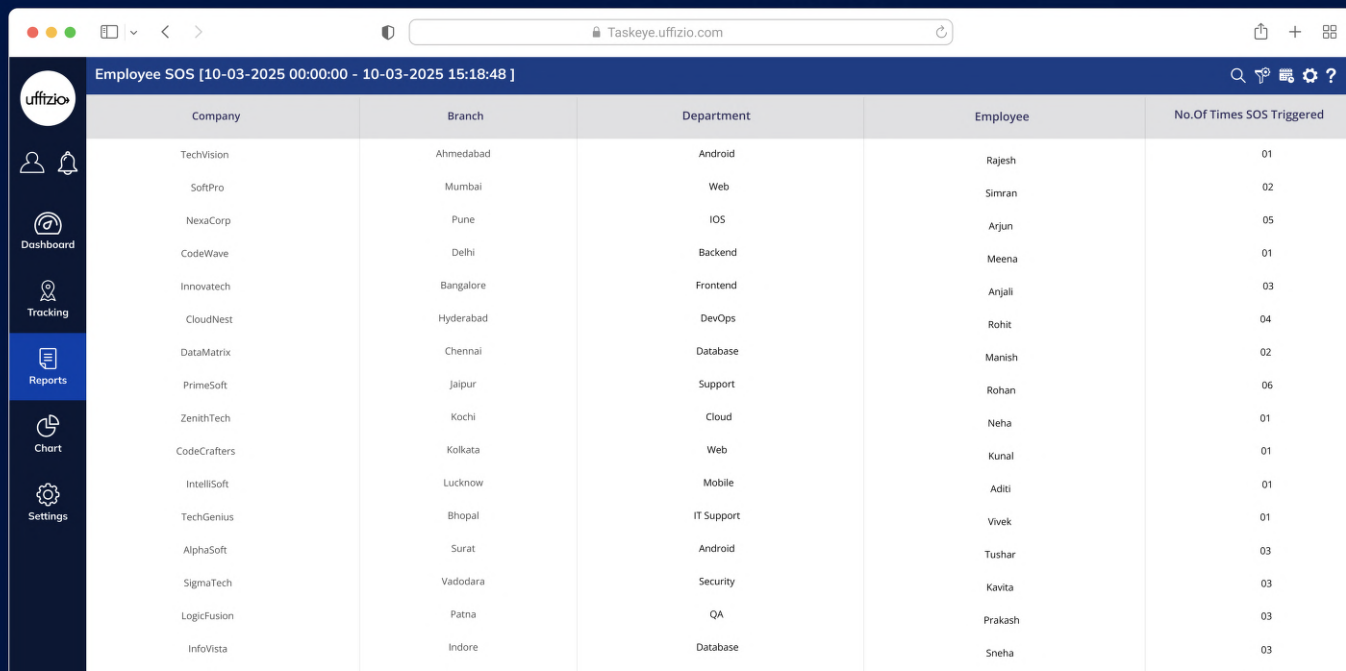

Add documents, images, or links.

BENEFIT

Enhances communication by delivering timely and targeted updates to field employees.

EFFECTIVE EMERGENCY MONITORING & RESPONSE FOR MANAGERS

Managers receive instant SOS alerts, allowing them to track incidents and provide timely support. This ensures quick decision-making and immediate solutions in emergency situations.

The screenshot displays a web browser window with the URL `Taskeye.uffizio.com`. The application interface features a dark blue sidebar on the left with navigation icons for Profile, Dashboard, Tracking, Reports (highlighted), Chart, and Settings. The main content area has a header bar for the report period: `Employee SOS [10-03-2025 00:00:00 - 10-03-2025 15:18:48]`. Below the header is a table with five columns: Company, Branch, Department, Employee, and No.Of Times SOS Triggered. The table lists 18 entries for various companies and their employees.

Company	Branch	Department	Employee	No.Of Times SOS Triggered
TechVision	Ahmedabad	Android	Rajesh	01
SoftPro	Mumbai	Web	Simran	02
NexaCorp	Pune	IOS	Arjun	05
CodeWave	Delhi	Backend	Meena	01
Innovatech	Bangalore	Frontend	Anjali	03
CloudNest	Hyderabad	DevOps	Rohit	04
DataMatrix	Chennai	Database	Manish	02
PrimeSoft	Jaipur	Support	Rohan	06
ZenithTech	Kochi	Cloud	Neha	01
CodeCrafters	Kolkata	Web	Kunal	01
IntelliSoft	Lucknow	Mobile	Aditi	01
TechGenius	Bhopal	IT Support	Vivek	01
AlphaSoft	Surat	Android	Tushar	03
SigmaTech	Vadodara	Security	Kavita	03
LogicFusion	Patna	QA	Prakash	03
InfoVista	Indore	Database	Sneha	03

KEY INSIGHTS

1

Targeted alerts

Notifies pre-assigned emergency contacts.

2

Quick responses

Two-way communication for immediate action.

3

Incident tracking

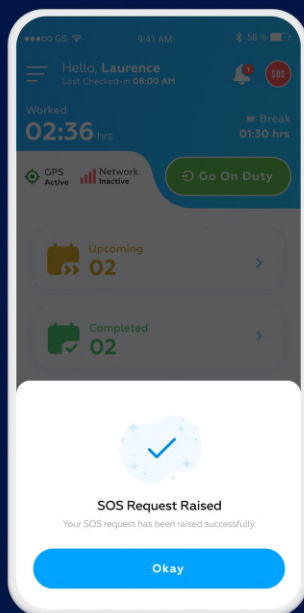

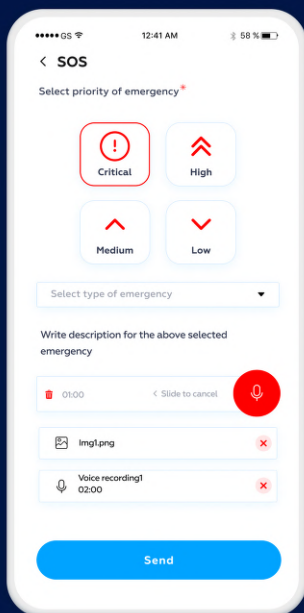

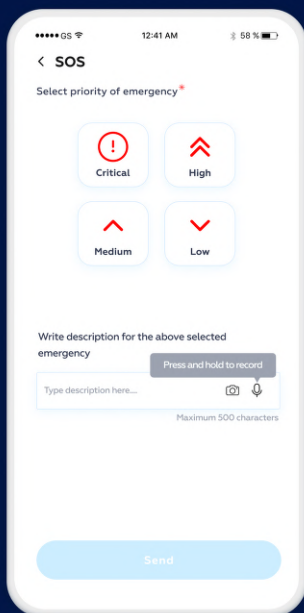

Logs incidents for follow-up and reporting.

BENEFIT

Improves response times for emergencies and enhances accountability and employee safety.

INSTANT EMERGENCY ASSISTANCE FOR EMPLOYEES

Employees can trigger an SOS alert with a single tap, ensuring immediate support in emergencies. The alert shares their live location, allowing for a quick and effective response.

KEY INSIGHTS

1

Immediate alert

One-tap SOS activation for quick help.

2

Alert options

Choose the severity of the emergency.

3

Incident location

Shares live location with supervisors.

4

Quick notification

Alerts sent via app, SMS, or email.

5

24/7 availability

Works anytime, anywhere.

BENEFIT

Ensures fast emergency response and assistance to Enhance personal safety in critical situations.

KEY REASONS TO INVEST

WHY SYSTEM INTEGRATORS TRUST OUR SOFTWARE

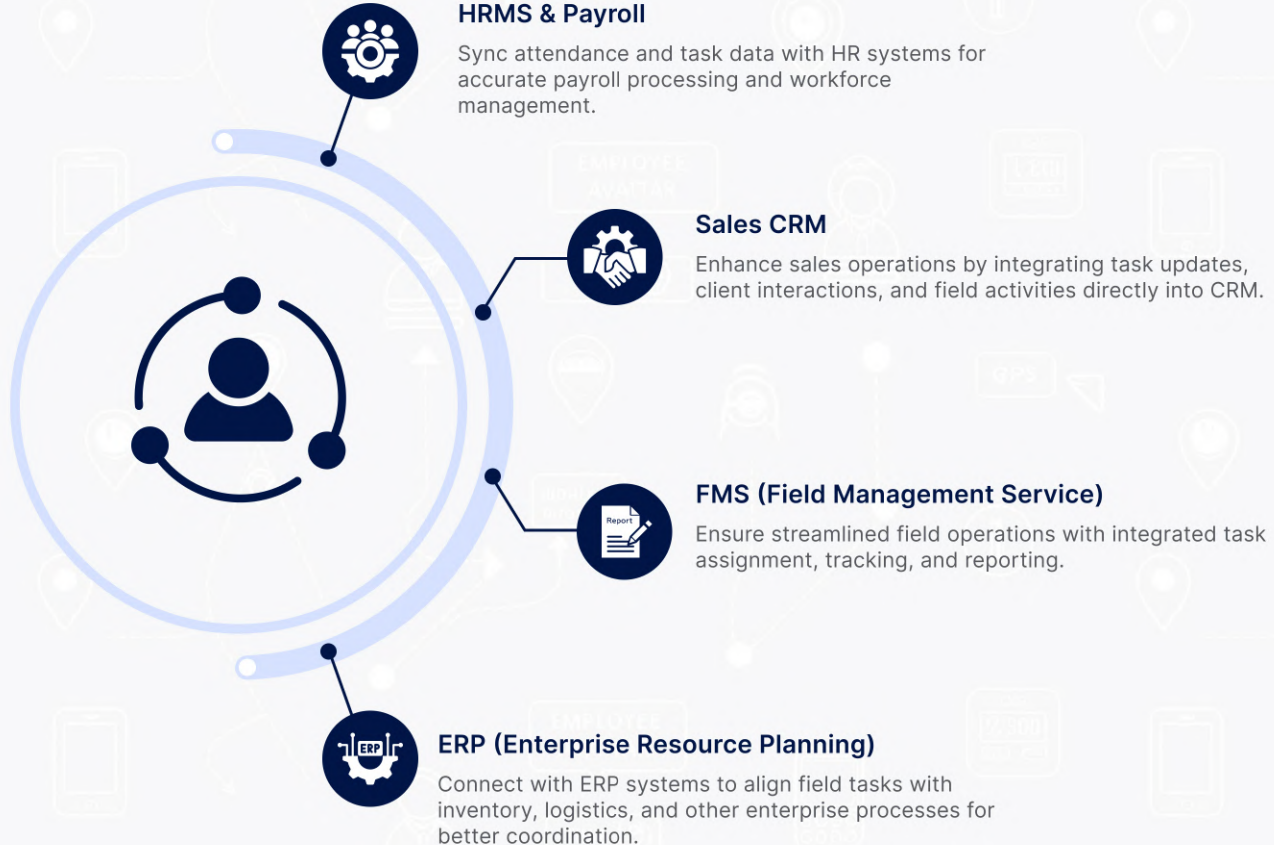

Our software offers system integrators a flexible, scalable solution with seamless integration. It supports multiple industries, multilingual features, and no hardware restrictions.

INTEGRATIONS & COMPATIBILITY

USE CASES ACROSS INDUSTRIES

A hand-drawn white underline consisting of two slightly wavy, parallel lines.

**Field Workforce & Task
Management**

**Logistics, Delivery & E-
commerce**

**Sales, Surveys & Customer
Engagement**

Support Services

Emergency Services

A background image showing three construction workers in hard hats and safety vests reviewing architectural plans on a construction site. The image is overlaid with a dark blue gradient.

FIELD WORKFORCE AND TASK MANAGEMENT

(Construction, Mining & Rail Maintenance)

CHALLENGES

→ Task allocation issues

Inefficient task assignment leads to delays and mismanagement.

→ Workforce visibility gap

Lack of live tracking for the workforce causes a visibility gap.

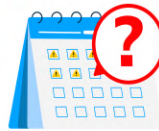

→ Workplace safety concerns

High safety risks in hazardous work environments.

→ Connectivity challenges

Poor connectivity in remote locations hinders task updates.

Task Allocation Issues

- ⚠ No clear task assignments
- ⚠ Employees unaware of their work
- ⚠ Tasks delayed due to poor scheduling
- ⚠ Uneven workload distribution

SOLUTIONS

→ Efficient task assignment

Location-based allocation for improved efficiency.

→ Live monitoring

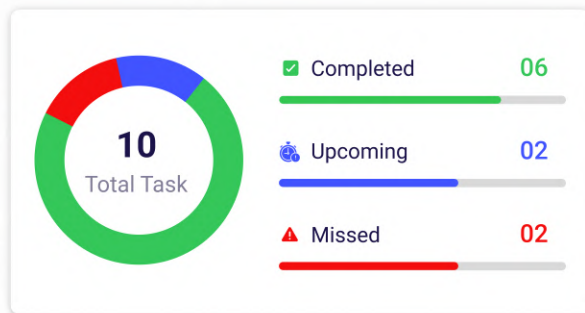

GPS and geofencing for accurate workforce tracking.

→ Safety alerts

SOS notifications for immediate assistance.

→ Offline task updates

Ensures data synchronization in low-connectivity areas.

1

Efficient resource management

Optimized workforce allocation for higher efficiency.

2

Real-time project monitoring

Improved project oversight with live tracking.

3

Advanced safety measures

Enhanced worker safety through rapid response features.

4

Uninterrupted task updates

Seamless task tracking even in remote locations.

A man wearing a blue baseball cap and a blue jacket over a striped shirt is looking at a smartphone. The background is a blurred outdoor scene with trees and a building. The entire image is overlaid with a semi-transparent blue filter. Large white text is positioned on the left side of the image.

LOGISTICS, DELIVERY & E-COMMERCE

(Food, Goods & Other delivery services)

CHALLENGES

→ Scheduling inefficiencies

Inefficient delivery scheduling and task allocation.

→ Tracking limitations

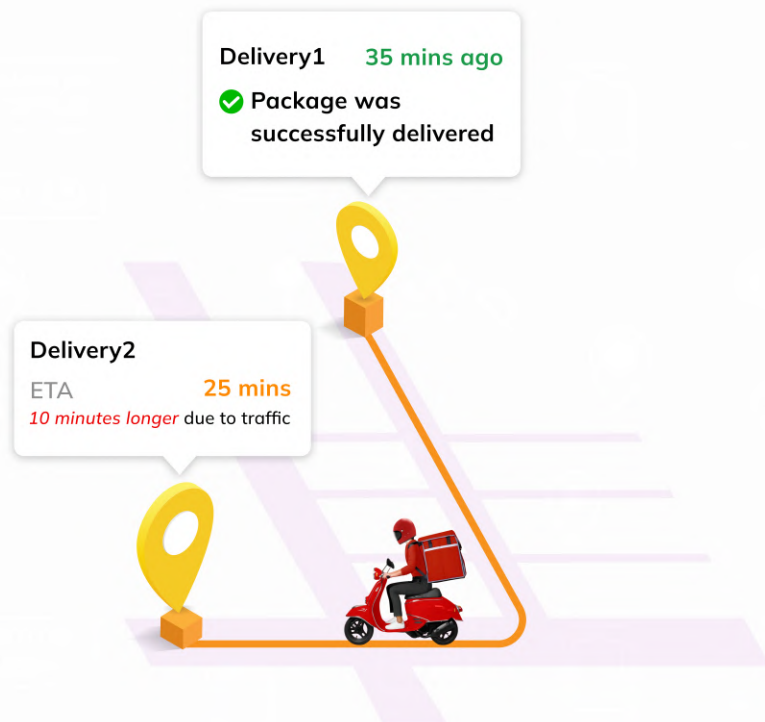

Lack of real-time monitoring of a delivery personnel.

→ Lack of the delivery proof

Unverified proof of delivery leads to disputes.

→ Performance monitoring gaps

Inconsistent monitoring of delivery agent performance.

SOLUTIONS

→ Automated delivery scheduling

Pre-planned delivery tasks for improved efficiency.

→ Live tracking

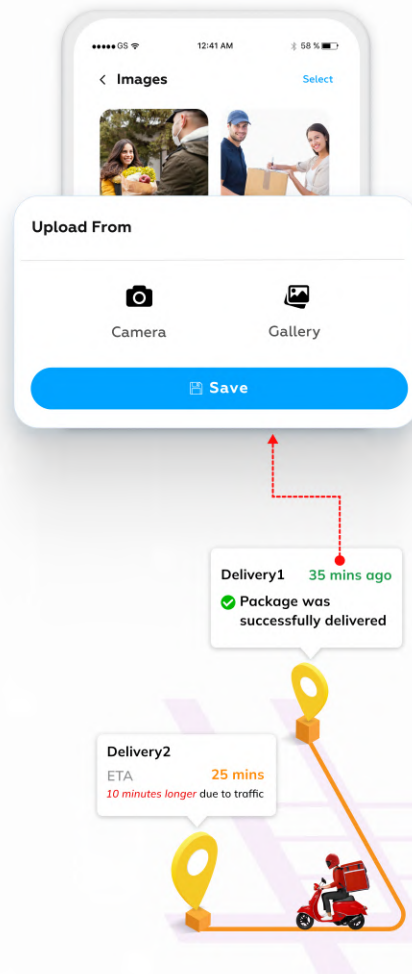

Monitor delivery personnel to ensure timely and accurate deliveries.

→ Secure proof-of-delivery

OTPs, photos, and customer signatures for verification.

→ Comprehensive reporting

Provides insights into completed and pending deliveries.

1

Optimized logistics

Faster & cost-effective deliveries with optimized delivery management.

2

Enhanced transparency

Improved transparency through secure proof-of-delivery options.

3

Boosted productivity

Better workforce productivity with structured monitoring.

4

Superior customer experience

Higher customer satisfaction due to timely and verified deliveries.

A background image showing two men in business suits shaking hands in an office setting. The image is overlaid with a dark blue semi-transparent filter. The man on the left is wearing glasses and has a slight smile. The man on the right has a beard and is also smiling. They are standing in front of a window with blinds.

SALES, SURVEYS & CUSTOMER ENGAGEMENT

(Retail & Sales, Field Surveys, Banking & Loan Assessments)

CHALLENGES

→ Sales tracking challenges

Difficulty in monitoring sales representatives and customer visits.

→ Disorganized scheduling

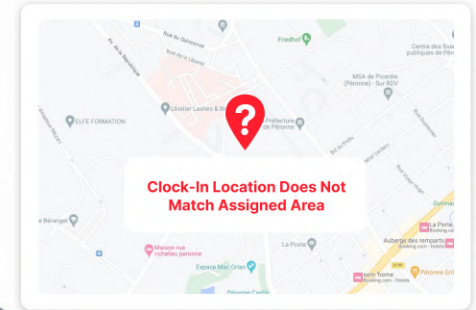

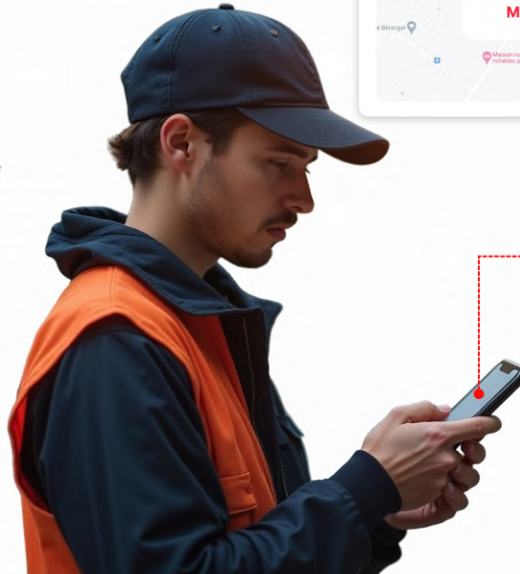

Unstructured meeting and survey scheduling.

→ Inaccurate attendance log

Limitations in attendance logs can lead to accountability issues.

→ Limited performance insights

Limited visibility on surveyor performance and location.

SOLUTIONS

→ GPS-based monitoring

Live tracking of sales and survey employees.

→ Automated scheduling

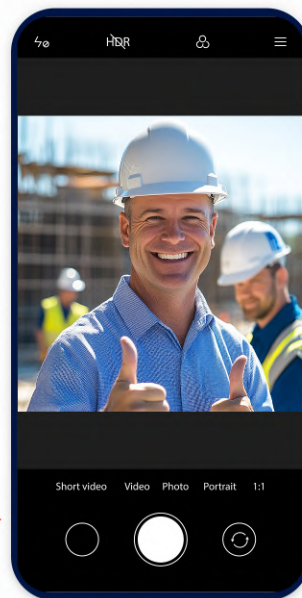

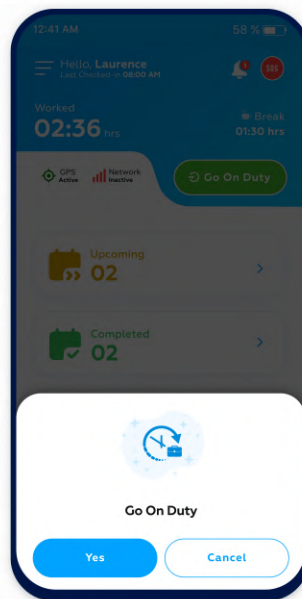

Ensures timely follow-ups for meetings and surveys.

→ Photo verification

Employees can confirm the attendance with selfie.

→ Customizable digital forms

Enables structured data collection for better insights.

1

Improved sales efficiency

Higher sales productivity with efficient tracking.

2

Enhanced data accuracy

Accurate survey data through the geo-fencing and proof-based validation.

3

Enhanced accountability

Photo verification ensures authentic check-ins, preventing false attendance.

4

Optimized resource management

Efficient expense and visit management for sales teams.

A blue-tinted background image of a call center. In the foreground, a woman with glasses and a headset is smiling while looking at a computer monitor. Behind her, a man is also wearing a headset and looking at a screen. The overall atmosphere is professional and supportive.

SUPPORT SERVICES

(Retail & Sales, Field Surveys, Banking & Loan Assessments)

CHALLENGES

→ Scheduling inefficiencies

Inefficient scheduling of home visits and essential services.

→ Task monitoring

Lack of accurate task monitoring due to limited tools.

→ Record management issues

Poor record-keeping leads to inconsistencies in client or patient data.

→ Task monitoring gaps

Limited visibility on task completion and service quality.

SOLUTIONS

→ Centralized scheduling

Ensure organized planning and efficient task scheduling and allocation.

→ Audio recording

Complete visibility of service professionals with audio recording of the task.

→ Digital record-keeping

Maintain updated and accurate task records by creating a detailed report.

→ Performance monitoring

Measure the performance of employees with their task completion records.

1

Seamless coordination

Improved coordination for home visits and service appointments.

2

Real-time workforce efficiency

Higher efficiency with live tracking of professionals.

3

Accurate record management

Better record management for accurate client or patient tracking.

4

Quality service delivery

Enhanced service quality through structured monitoring.

A background image showing three firefighters in full protective gear, including helmets and air tanks, walking away from the camera into a smoky, dimly lit environment. The firefighter on the right has 'PARADIMDE' visible on their back. The overall tone is dark and dramatic, with a blue and orange color palette.

EMERGENCY SERVICES

(First Responders, Medical Emergencies, Disaster Response)

CHALLENGES

→ Dispatch inefficiencies

Delayed response due to inefficient emergency dispatching.

→ Tracking challenges

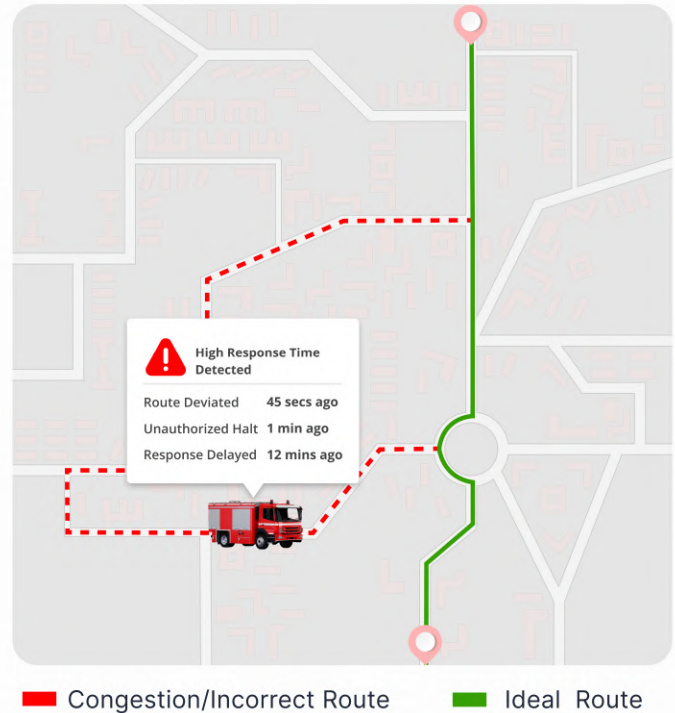

Lack of live tracking for first responders and emergency teams.

→ Safety concerns

High safety risks for field workers in critical situations.

→ Data inconsistencies

Inconsistent data logging affects emergency case handling.

SOLUTIONS

→ Smart dispatch system

Optimizes emergency response with rapid task assignment.

→ Live GPS tracking

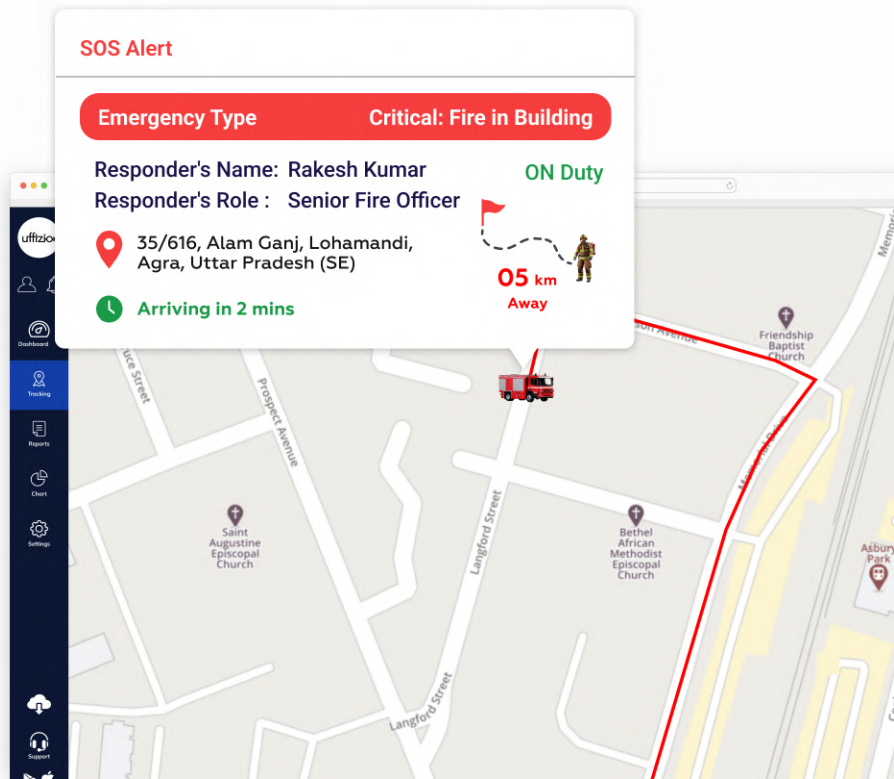

Enables real-time monitoring of first responders.

→ SOS alerts & safety measures

Ensures quick emergency assistance for field teams

→ Automated report generation

Improves accuracy in emergency data recording.

1

Rapid emergency response

Faster emergency response with efficient dispatching and real-time alerts.

2

Enhanced field safety

Increased safety for field professionals through instant SOS features.

3

Accurate case documentation

Improved accuracy in emergency case documentation and reporting.

4

Effective crisis management

Enhanced coordination among first responders for better crisis management.

KEY TAKEAWAYS FOR FIELD EMPLOYEE TASK MONITORING

Here are the key takeaways from this eBook on how Taskeye enhances field employee task monitoring:

-  **Streamlined task assignment** : Auto-assign tasks based on availability, location, and skills.
-  **Real-time task monitoring** : Track progress for accountability and timely completion.
-  **Employee performance insights** : Use analytics to optimize workforce efficiency.
-  **Simplified admin management** : Automate attendance, leave, and expense tracking.
-  **Instant field support** : Ensure seamless operations with real-time assistance.
